

AIRMAX[®]

2024

PRODUCT CATALOG

The Clear Choice for Ponds, Lakes & Water Gardens

Airmax, Inc. manufactures unrivaled aeration systems, innovative fountains, and highly effective water treatments. With over 25 years of industry-leading experience and a track record of proven results in the field, Airmax has earned the utmost trust among pond and lake owners. Airmax products are proudly made in the USA!

TABLE OF CONTENTS

Aeration & Fountains - Pages 4 – 27

AIRMAX 2024

New Product Spotlight:

SolarSeries™ Aeration

Page 13:

- Two American-made solar panels
- Available in both direct drive and battery backup
- Can operate up to 24 hours

Spinning Blossom Nozzle

Page 17:

- Available for 1/2 HP – 5 HP fountains
- Features crisp arches that weave together
- Two tiers for visual interest and balance

7.5 & 10 HP Fountains

Pages 22-23:

- Built on LakeSeries platform
- Easy to install
- Fountains work in water as shallow as 48" Inches

SolarSeries™ Fountain

Pages 24-25:

- Pattern size comparable to 1 HP PondSeries
- Maintenance free direct-drive motor
- Industry's first premium spray patterns
- Zero operating costs

10 HP Gusher

Watch the Airmax Ecosystem in Action: Three Steps to Pond & Lake Management

Pond & Lake Aeration

Airmax, The World's Best Aerator: The most effective, quiet, efficient and easiest to install. Aeration adds valuable oxygen to a pond or lake, particularly on the pond's bottom where muck and organic debris accumulate. A properly sized aerator works from the bottom up to ensure all areas of the pond are circulated and saturated with dissolved oxygen, leaving you with a cleaner, clearer and biologically balanced pond.

Airmax Assist™ Results Guaranteed!

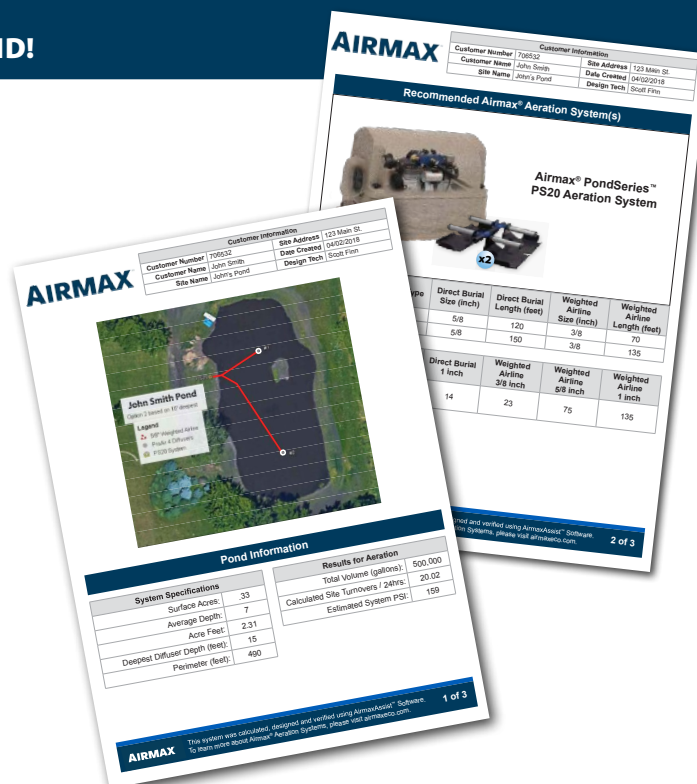

AERATION MAPPING SERVICE THE RIGHT SYSTEM FOR THE PERFECT POND!

LET A CERTIFIED AIRMAX INSTALLER DESIGN THE RIGHT SYSTEM FOR YOUR POND OR LAKE!

Selecting the right system as well as determining the proper placement of the diffusers is vital to ensuring you are circulating and aerating your pond or lake effectively. Incorrectly placing diffusers or using an under-sized unit, limits the overall effectiveness of an aeration system. The Airmax Assist™ mapping service ends the guesswork. When a Certified Installer uses Airmax's proprietary software to map your pond or lake, not only will the installer stand behind the installation, but Airmax will guarantee the results!

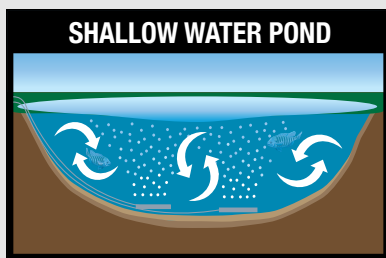

HERE IS HOW TO GET YOUR LAYOUT:

Visit www.airmaxeco.com/airmax-assist and complete a short survey. Airmax will run this information along with input from your local Certified Installer through the Airmax Assist proprietary software to create a complete pond profile, detailed aeration placement map and a management plan.

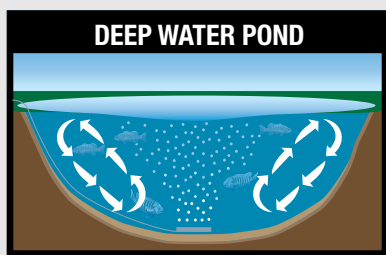

Why Pond Depth Matters

The deeper a diffuser plate is placed in your pond, the more area it can effectively aerate. Shallow ponds, or ponds with irregular shapes and bends, require more diffuser plates per surface acre.

In shallow ponds, the column of diffused air is not able to “open” as far, which limits the effective area of each plate. The bends and curves in irregular shaped ponds block the circulation provided by an aeration system, which creates the need for more plates to reach isolated sections of your pond.

As diffused air leaves the diffuser plate, it rises to the pond’s surface in a V pattern, creating a current. The higher this pattern is able to rise, the wider it becomes, which allows it to circulate a greater volume of water.

Shallow Water Series®

System Features:

- Perfect for shallow ponds up to 6' deep
- Single systems can aerate up to 1/2 acre
- ETL Electrical Safety Certification
- Extremely efficient, costs as little as \$3.60/month to run 24/7
- Available in 115v

PondSeries®

System Features:

- Perfect for ponds or small lakes up to 50' deep
- Single systems can aerate up to 6 acres
- ETL Electrical Safety Certification
- Extremely efficient costs as little as \$13.20/month to run 24/7
- Available in 115v or 230v

LakeSeries®

System Features:

- Perfect for ponds or large lakes up to 50' deep
- Single systems can aerate up to 12 acres
- ETL Electrical Safety Certification
- Available in 115v or 230v

NEW SolarSeries™

System Features:

- Two American-made solar panels
- Direct Drive or Battery Backup Systems
- EasyMount Assembly
- Two ProAir 2 diffusers and SilentAir compressor
- Can operate up to 24 hours
- \$0.00 cost per month

The Airmax Advantage

SilentAir Compressors

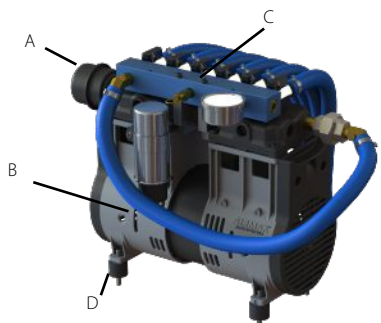

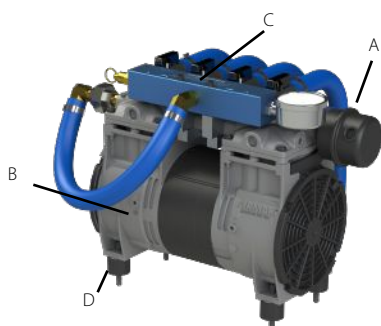

- Highly Efficient & Long Lasting
- 3-Year Warranty
- Made in the USA

- A. Large Air Filter – Maximizes the life of compressor
- B. High Efficiency SilentAir Compressor
- C. Manifold With Nickel Plated Ball Valves – Simplifies airflow management
- D. Rubber Compressor Mounts – Reduces noise and vibration for silent operation
- E. Airline Quick Disconnects – For easy system removal and storage

LR Linear Diaphragm Series

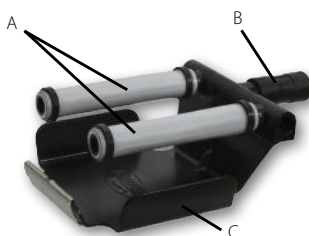

RP Rocking Piston Series

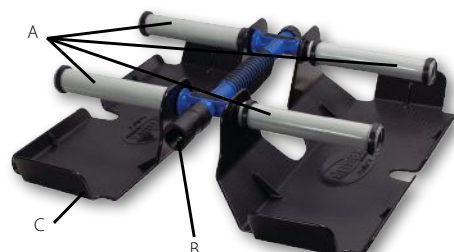

ProAir® Weighted Diffusers

- Maximum Circulation & Low Maintenance
- 5-Year Warranty
- Made in the USA

ProAir 2 for Ponds Diffuser Size: 14.75"L x 8"W x 3.75"H

- A. PTFE Non-Stick 6" Membrane Diffuser Stick – Provides the synergy of air stones while being virtually maintenance-free
- B. Check Valve – Prevents back pressure on compressor

ProAir 4 for Ponds and Lakes Diffuser Size: 19"L x 19"W x 5"H

- C. Innovative Sled Design – Keeps diffuser submerged while maintaining an upright position during installation

Airmax Cabinets

- Quiet, Cool & Easy to Install
- 10-Year Warranty on Cabinet
- 3-Year Warranty on Electrical Components

Standard Composite Cabinet Cabinet Size: 23"L x 17"W x 15"H

- A. Composite Cabinet with Removable Top – Protects components while providing easy access
- B. Ventilation Fan with Rain Shroud – Cools and protects against moisture and heat damage
- C. Pre-wired Electrical Box – Simplifies electrical connections for easy setup
- D. Elevated Base – Protects against damaging flood water
- E. High Density Air Intake Filter – Protects the compressor from outside contaminants

Aluminum Cabinet Cabinet Size: 30.25"L x 28.75"W x 21"H

- A. Quiet Cabinet Design – Engineered to absorb sound and reduce vibration for quiet operation
- B. Lockable Powder-Coated Aluminum Cabinet – Secure and durable, providing the ultimate equipment protection
- C. Enhanced Cooling System – Dual cooling fans tunnel airflow evenly through the cabinet for maximum air exchange
- D. Extra Large Integrated Filter – High-density intake filter for reduced maintenance and maximum system life

Shallow Water Series[®] Systems for Ponds up to 1/2 Acre

SW20 • Aerates up to 1/4 Acre

SW20 includes: Two ProAir 2 weighted diffusers, Airmax composite cabinet with cooling fan, high efficiency LR25 SilentAir linear diaphragm compressor and a dual manifold assembly. 3-year warranty. Made in the USA.

Note: Operating a shallow water system at depths greater than 6' will void warranty and cause premature failures.

SW20 System Specs:

Running Amps	0.43
Volts	115
CFM.....	2.5
Max Depth.....	6'
Operating Cost Per Month*	\$3.60 (24/7)
Power Cord	6'
Cabinet Dimensions: 23"L x 17"W x 15"	

2-Diffuser System

Aerates up to: 1/4 Acre, up to 6' Deep

Diffuser Placement:

#600803 - SW20 w/200' 3/8" wt. Airline**

#600801 - SW20, No Airline

SW40 • Aerates up to 1/2 Acre

SW40 includes: Four ProAir 2 weighted diffusers, Airmax composite cabinet with cooling fan, high efficiency LR50 SilentAir linear diaphragm compressor and a quad manifold assembly. 3-year warranty. Made in the USA.

Note: Operating a shallow water system at depths greater than 6' will void warranty and cause premature failures.

SW40 System Specs:

Running Amps	0.87
Volts	115
CFM.....	4.9
Max Depth.....	6'
Operating Cost Per Month*	\$7.20 (24/7)
Power Cord	6'
Cabinet Dimensions: 23"L x 17"W x 15"	

4-Diffuser System

Aerates up to: 1/2 Acre, up to 6' Deep

Diffuser Placement:

#600813 - SW40 w/400' 3/8" wt. Airline**

#600811 - SW40, No Airline

*Cost Per Month is calculated at 10¢ per kilowatt hour. Please note that costs will vary depending on location.

**Weighted airline ships in 100' rolls. Example: SW20 comes with (2) 100' rolls.

PondSeries® Systems for Ponds up to 6 Acres

PS10 • Aerates up to 1 Acre

The PS10 is ideal for ponds up to 1 acre and between 6 and 50 feet deep. PS10 includes: One ProAir 4 weighted diffuser, Airmax composite cabinet with cooling fan, 1/4 HP SilentAir rocking piston compressor, and a single manifold assembly. Manufactured in the USA with high performance, professional quality components. 3-year warranty.

PS10 System Specs:

HP.....	1/4
Running Amps	1.6
Volts	115
CFM.....	2.3
Max Depth.....	50'
Operating Cost Per Month*	\$13.20 (24/7)
Power Cord	6'

Cabinet Dimensions: 23"L x 17"W x 15"

1-Diffuser System

Aerates up to:

- 0.25 Acre, 6'-9' Deep
- 0.5 Acre, 9'-12' Deep
- 1 Acre, 12'-50' Deep

Diffuser Placement:

#600821 - PS10 With One (1) ProAir 4 Diffuser

#510119 - 5/8" Airline, 100' Roll

Available in 230v models. Call for details.

PS20 • Aerates up to 2 Acres

The PS20 is ideal for ponds up to 2 acres and between 6 and 50 feet deep. PS20 includes: Two ProAir 4 weighted diffusers, Airmax composite cabinet with cooling fan, 1/2 HP SilentAir rocking piston compressor, and a dual manifold assembly. Manufactured in the USA with high performance, professional quality components. 3-year warranty

PS20 System Specs:

HP.....	1/2
Running Amps	4.1
Volts	115
CFM.....	4.7
Max Depth.....	50'
Operating Cost Per Month*	\$33.00 (24/7)
Power Cord	6'

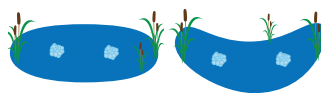

Cabinet Dimensions: 23"L x 17"W x 15"H

2-Diffuser System

Aerates up to:

- 0.5 Acre, 6'-9' Deep
- 1 Acre, 9'-12' Deep
- 2 Acres, 12'-50' Deep

Diffuser Placement:

#600831 - PS20 With Two (2) ProAir 4 Diffusers

#510119 - 5/8" Airline, 100' Roll

Available in 230v models. Call for details.

*Cost Per Month is calculated at 10¢ per kilowatt hour. Please note that costs will vary depending on location.

**Weighted airline ships in 100' rolls.

PS40 • Aerates up to 4 Acres

The PS40 effectively and efficiently aerates ponds up to 4 acres and between 6 and 50 feet deep. PS40 includes: Choice of three or four ProAir 4 weighted diffusers, Airmax composite cabinet with cooling fan, 3/4 HP SilentAir rocking piston compressor, and a quad manifold assembly. Manufactured in the USA with high performance, professional quality components. 3-year warranty.

PS40 System Specs:

HP.....	3/4
Running Amps	4.3
Volts	115
CFM.....	5.6
Max Depth.....	50'
Operating Cost Per Month*	\$35.40 (24/7)
Power Cord	6'

Cabinet Dimensions: 23"L x 17"W x 15"H

3-Diffuser System

Aerates up to:

- 1.5 Acre, 6'-9' Deep
- 2 Acres, 9'-12' Deep
- 3 Acres, 12'-50' Deep

Diffuser Placement:

4-Diffuser System

Aerates up to:

- 2 Acre, 6'-9' Deep
- 3 Acres, 9'-12' Deep
- 4 Acres, 12'-50' Deep

Diffuser Placement:

#600861 - PS40 With Three (3) ProAir 4 Diffusers

#600865 - PS40 With Four (4) ProAir 4 Diffusers

#510119 - 5/8" Airline, 100' Roll

Available in 230v models. Call for details.

PS60 • Aerates up to 6 Acres

The PS60 aerates ponds and lakes up to 6 acres and between 6 and 50 feet deep, or ponds with an irregular shape that require precision plate placement for even circulation. PS60 includes: Choice of five or six ProAir 4 weighted diffusers, large Airmax composite cabinet with cooling fan, 1 HP SilentAir rocking piston compressor, and a six-port manifold assembly. Manufactured in the USA with high performance, professional quality components. 3-year warranty.

PS60 System Specs:

HP.....	1
Running Amps	6.3
Volts	115
CFM.....	7.1
Max Depth.....	50'
Operating Cost Per Month*	\$51.90 (24/7)
Power Cord	6'

Cabinet Dimensions: 27"L x 24"W x 18.75"H

5-Diffuser System

Aerates up to:

- 2.5 Acre, 6'-9' Deep
- 3.5 Acres, 9'-12' Deep
- 5 Acres, 12'-50' Deep

Diffuser Placement:

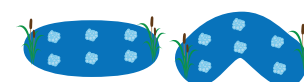

6-Diffuser System

Aerates up to:

- 3 Acre, 6'-9' Deep
- 4 Acres, 9'-12' Deep
- 6 Acres, 12'-50' Deep

Diffuser Placement:

#600869 - PS60 With Five (5) ProAir 4 Diffusers

#600873 - PS60 With Six (6) ProAir 4 Diffusers

#510119 - 5/8" Airline, 100' Roll

Available in 230v models. Call for details.

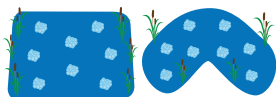

LakeSeries® Systems for Lakes up to 12 Acres

LS80 • Aerates up to 8 Acres

Airmax LakeSeries Aeration Systems are powerful enough to aerate large ponds and lakes up to 8 acres with a single unit, yet customizable to fit any waterbody. Includes up to eight ProAir 4 Weighted Diffusers, Lockable Powder-Coated Aluminum Cabinet with dual cooling fans, and Dual Four-Port Manifold Assemblies. The LS80 features Dual 3/4 HP SilentAir Rocking Piston Compressors. Manufactured in the USA with high performance, professional quality components.

Diffuser Placement:

System Specs:

HP.....	1.5
Running Amps	8.6/4.3
Volts	115 or 230
CFM.....	11.2
Max Depth.....	.50'
Operating Cost Per Month*	\$70.80 (24/7)

Cabinet Dimensions:

30.25"L x 28.75"W x 21"H

#510557 - LS80, Unit Only (115V)

#510166 - ProAir 4 Complete Diffuser (up to 8)

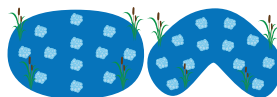

#510119 - 5/8" Airline, 100' Roll

LS120 • Aerates up to 12 Acres

Airmax LakeSeries Aeration Systems are powerful enough to aerate large ponds and lakes up to 12 acres with a single unit, yet customizable to fit any waterbody. Includes up to twelve ProAir 4 Weighted Diffusers, Lockable Powder-Coated Aluminum Cabinet with dual cooling fans, and Dual Six-Port Manifold Assemblies. The LS120 features Dual 1 HP SilentAir Rocking Piston Compressors. Manufactured in the USA with high performance, professional quality components.

Diffuser Placement:

System Specs:

HP	2
Running Amps	6.3
Volts	230 Only
CFM.....	14.2
Max Depth.....	.50'
Operating Cost Per Month*	\$103.80 (24/7)

Cabinet Dimensions:

30.25"L x 28.75"W x 21"H

#510560 - LS120, Unit Only

#510166 - ProAir 4 Complete Diffuser (up to 12)

#510119 - 5/8" Airline, 100' Roll

**Cost Per Month is calculated at 10¢ per kilowatt hour. Please note that costs will vary depending on location.
Airline and ProAir Diffusers sold separately.*

NEW!

SolarSeries™ Systems for Ponds up to 4 Acres*

Direct Drive

The SS20-DD is ideal for ponds up to 2 acres 20 feet deep. Features two American-made, high-output solar panels and EasyMount™ Assembly for simple installation. SS20-DD includes: Two ProAir 2 weighted diffusers, SilentAir compressor, dual manifold assembly, and pole-mounted fiberglass cabinet. Manufactured in the USA with high performance, professional quality components. 3-year warranty on system, 5-year on diffusers. 25-year limited warranty on solar panels.

2-Diffuser System

Aerates up to:

0.5 Acre, 6'-9' Deep
1 Acre, 9'-12' Deep
2 Acres, 12'-20' Deep

Specs:

Volts 24v DC
CFM..... 2
Max Depth 20'
Battery Type..... N/A
Number of Solar Panels 2

Control Panel Dimensions:

14"L x 16"W x 8"H

#654821 - SS20-DD With Two (2) ProAir 2 Diffusers

#510119 - 5/8" Airline, 100' Roll

Battery Backup

Battery-backup systems provide long runtimes, for up to 24 hours per day, allowing for the full benefits of aeration and the best possible results. The SS20-BB is ideal for ponds up to 2 acres 20 feet deep. It features two American-made, high-output solar panels, two ProAir 2 weighted diffusers, and two batteries. The SS40-BB is ideal for ponds up to 4 acres 20 feet deep. It features four American-made, high-output solar panels, four ProAir 2 weighted diffusers, and four batteries. Both systems included EasyMount™ assembly for simple installation, SilentAir compressor, lockable powder-coated aluminum cabinet, cooling fan, dual manifold assembly, and MPPT Controller with Bluetooth®. Manufactured in the USA with high-performance, professional quality components. 3-year warranty on system and a 5-year on diffusers. 25-year limited warranty on solar panels.

2-Diffuser System

Aerates up to:

0.5 Acre, 6'-9' Deep
1 Acre, 9'-12' Deep
2 Acres, 12'-20' Deep

Specs:

Volts 24v DC
CFM..... 2
Max Depth 20'
Battery Type..... 12v AGM (x2)
Number of Solar Panels 2

Cabinet Dimensions:

30.25"L x 28.75"W x 21"H

#654823 - SS20-BB With Two (2) Diffusers

#654842 - SS40-BB With Four (4) Diffusers

#510119 - 5/8" Airline, 100' Roll

4-Diffuser System

Aerates up to:

1 Acre, 6'-9' Deep
2 Acre, 9'-12' Deep
4 Acres, 12'-20' Deep

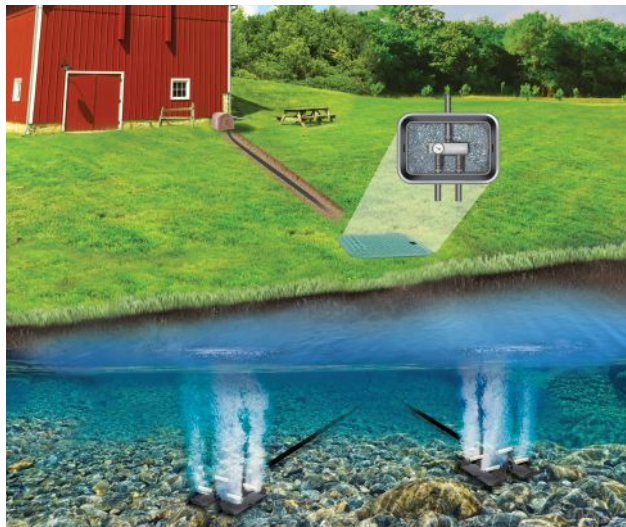

Specs:

Volts 24v DC
CFM..... 4
Max Depth 20'
Battery Type..... 12v AGM (x4)
Number of Solar Panels 4

Cabinet Dimensions:

30.25"L x 28.75"W x 21"H (x2)

Parts & Accessories

Remote Manifold Kit

Designed for aeration installations where the power source is away from the pond's edge, the Remote Manifold Kit allows for a single run of direct burial airline from the power source to the pond. This gives you the ability to make airflow adjustments pond side so you can remain in view of the diffusers. All kits include a junction valve box, remote manifold and necessary fittings to connect to 1" poly pipe.

#600194 – 4-Port Manifold
#600254 – 6-Port Manifold

Camlock Connector Kit

The Airmax Camlock Connector Kit is designed for fast and easy connections between the compressor manifold hoses and underground airlines. Ideal for PondSeries systems that will be removed for winter months. Camlock Connector Kits can be used with 3/8" or 5/8" airline.

#510435 – Camlock Connector Kit

Cabinet Post Mount Kit

Use the Cabinet Post Mount Kit for Shallow Water & PondSeries installations that require the aeration cabinet to be elevated. Constructed of powdered coated aluminum, the mount kit includes mounting bracket and hardware to secure aeration cabinet to both round or square wooden posts, 4" diameter or larger.

#652121 – Standard Composite Cabinet Post Mount Kit
#652122 – Large Composite Cabinet Post Mount Kit

Airmax Under Cabinet Junction Box

Use with any Airmax Aeration System for easy removal or access to line connections underneath the cabinet.

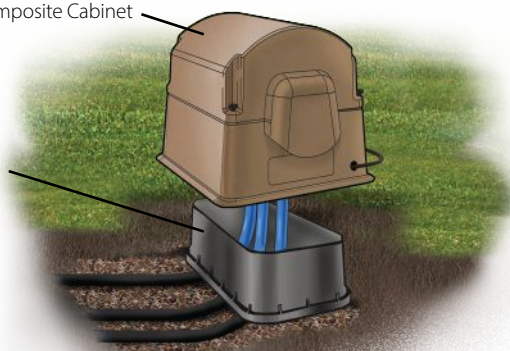

Box Dimensions: 12" W x 17" L x 6" H

Fountain Aeration

Fountains create a beautiful attraction, adding the sights and sounds of moving water to your pond or lake. In addition, fountains aerate the water by increasing water circulation and oxygen saturation. Airmax fountains are designed and built for superior performance, long-lasting durability, low maintenance, and the best in class energy efficiency. Airmax has the largest, most defined spray patterns, allowing you to create stunning displays. You can bring your fountain to life at night by adding high-output energy efficient lights, which come with color-changing technology and wireless remote control.

NEW PATTERN!

1/2 HP EcoSeries

5 HP LakeSeries

A Revolutionary New Pattern:

The Spinning Blossom nozzle is turning heads with its captivating spinning pattern. The center tier of our latest fountain revolution features crisp arches that spin, creating ropes of water that braid together before falling back to the pond's surface. The second tier is a generous spray that spreads wide over the water for added visual interest and balance. Beyond the aesthetic beauty, the Spinning Blossom produces the calming sound of rushing water. Available for all 1/2 hp - 5 hp fountains. Add lights to bring the display to life at night.

The Spinning Blossom Nozzle

EcoSeries[™] Fountain Features

Enjoy the sights and sounds of this beautiful fountain display aerator. Designed to look great, provide aeration and be efficient. The Airmax EcoSeries 1/2 HP fountain outperforms other 3/4 and 1 HP fountains with a fraction of the energy consumption. Built with the pond owner in mind, "no tools" are required for the installation and the changing of nozzles. 24" minimum operating depth.

Standard features include: 115v Plug & Play Control Panel with two digital timers for fountain and optional lights, three spray patterns, a sleek float design, stainless steel intake screen and motor lead, power cord and underwater quick disconnect. Provides aeration for ponds up to 1/4 surface acre, 6' deep. Larger ponds will require the addition of diffused aeration (pgs. 18-25) or multiple fountains. Fountain & Control Panel: 3-year warranty.

EcoSeries Fountain Kit Includes

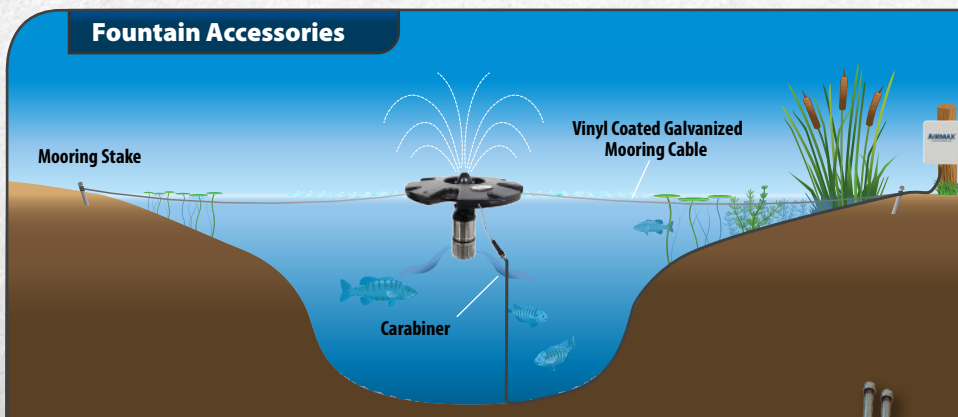

- 3 Spray Patterns: Classic, Trumpet, Crown & Trumpet
- Energy Efficient, Fully Sealed, UL Approved Motor
5.8 Amps, 667 Watts @ 115v
- 115v Plug & Play Control Panel With Two Digital Timers
for Fountain & Optional Lights
- Power Cord with Strain Relief
- Underwater Quick Disconnect

PondSeries® Fountains

The Airmax PondSeries fountain is built and engineered for superior performance and long-lasting durability. The patent-pending, high-flow design is meant to showcase stunning, crisp spray patterns, providing a beautiful aerating display. The maintenance-free, energy efficient motor utilizes an innovative cooling shroud design, forcing all water across the motor for maximum cooling and motor longevity.

Standard features include: Control panel with two digital timers and GFCI protection, low-profile float design, three spray patterns, stainless steel motor and motor lead, oversized modular intake screen as well as power cord with strain relief and underwater disconnect. Provides aeration for ponds up to one surface acre, up to 6' deep. Larger ponds will require the addition of diffused aeration or multiple fountains. 36" minimum operating depth. Fountain and control panel, 3-year warranty.

LakeSeries® Fountains

The Airmax LakeSeries Fountains are the industry's premier fountain line, stepping up in class with higher horsepower options, larger spray patterns, and exclusive design. The LakeSeries offers superior performance while remaining easy to install, maintain, and customize with a variety of optional spray patterns and full-spectrum, color-changing LED lights.

LakeSeries fountains are engineered for superior performance and long-lasting durability. The maintenance-free, energy-efficient motor utilizes an innovative cooling shroud design, forcing all water across the motor for maximum cooling and motor longevity. Easily change the look of your fountain with the Airmax quick-change nozzle design. The Independent Stability Pontoon (ISP) Float System's innovative design allows for greater horsepower fountain displays with maximum stability and balance during fountain operation. LakeSeries 2 HP and 3 HP include three pontoons while the 5 HP includes four pontoons. Fountain and control panel: 5-year warranty on 2 HP – 5 HP Models.

Minimum Operating Depths:

- 2 HP: 36"
- 3 HP: 48"
- 5 HP: 60"

NEW 7.5 & 10 HP LakeSeries Fountains

Airmax has further expanded our fountain lineup by launching the innovative LakeSeries 7.5 HP and 10 HP models. These fountains represent our largest units to date, delivering impressive height and scale. Featuring the twin ISP Float System for unmatched stability and tool-free installation, LakeSeries fountains are the lightest and most compact large horsepower options available, eliminating the need for bulky equipment and extensive manpower. With quick and easy installation requiring only 1-2 technicians and no heavy machinery, the LakeSeries offers convenience, efficiency, and performance never seen before.

Standard features include: control panel with two digital timers to accommodate fountain and lights, GFCI protection, ISP float system, stainless steel motor and stainless braided motor lead, oversized modular intake screen as well as power cord with strain relief and underwater disconnect. Fountain and control panel: 5-year warranty for 7.5HP and 10HP.

Minimum Operating Depths:

- 7.5 HP: 48"
- 10 HP: 48"

Dual Digital Timer Control Panel

SPRAY PATTERN SIZES VARY DEPENDING ON SUNLIGHT

SolarSeries™ Fountain

Let the sun power your decorative fountain display! The SolarSeries uses renewable energy to produce crisp, beautiful spray patterns. The spray patterns of the SolarSeries fountain adapt and vary in size as sunlight exposure changes, creating captivating visual displays. In full sun, the fountain display will reach its maximum height.

The SolarSeries Fountain is built with high-quality, professional components for long-lasting durability and easy installation. Powering the fountain are four American-made, high-output solar panels, producing daytime displays for up to 12 hours, even in low-light conditions. The EasyMount™ Assembly system is a durable, powder-coated aluminum mounting system that comes preassembled for easy installation of your solar panels.

Standard features include: Controller assembly, low-profile float design, three spray patterns, stainless steel motor and motor lead, oversized modular intake screen as well as power cord with strain relief and underwater disconnect. Provides aeration for ponds up to 1/2 surface acre, up to 6' deep. Larger ponds will require the addition of diffused aeration or multiple fountains. 36" minimum operating depth. 3-year warranty on fountain and controller assembly. 25-year limited warranty on solar panels.

Water Garden Aeration

Our CrystalClear® Aeration systems are designed for small, medium, and large water gardens. They are easy to install, energy efficient, and supply the fresh air needed for a balanced ecosystem. By maintaining high oxygen levels, you are supporting the good bacteria that help to keep your pond clear. In addition, water circulation allows your filter to work more effectively. Designed to be used all four seasons, to maintain a balanced pond.

Why Aerate Your Water Garden?

How does aeration work?

Aeration works from the bottom up, providing circulation and increased dissolved oxygen levels. Although waterfalls and fountain features add oxygen to the pond, in many cases, they are not enough. Adding a PondAir or KoiAir system will ensure you have adequate aeration and circulation.

Here are five great reasons to add aeration to your pond...

- A properly sized aerator adds valuable oxygen to a pond more efficiently than a typical waterfall feature.
- Higher oxygen levels increase beneficial bacteria in a pond, leading to healthier fish, cleaner water and less organic buildup on the bottom of a pond.
- Aeration can replace the need for de-icers or heaters in the winter months. Aeration releases gasses from the pond and adds oxygen more efficiently than a de-icer or pond heater.
- Saves energy costs of running a waterfall pump. A properly sized aerator can aerate a pond allowing you to turn your waterfall pump on only when you're there to enjoy it. This can save you hundreds of dollars each year.
- Reduces pond maintenance. By running an aerator in conjunction with a waterfall pump, your pond will stay cleaner, longer.

PondAir® Aeration Kits

For Ponds up to 2,000 Gallons

PondAir 2

PondAir 4

- Adds Valuable Oxygen & Circulation to Smaller Water Gardens
- Extremely Quiet Operation
- Energy Efficient Costing as Little as \$0.20/Month to Run

**Protect your PondAir
with a Mini TrueRock®
vented cover pg. 32**

PondAir Aeration Kits are perfect for ponds up to 2,000 gallons. Powered by highly efficient diaphragm compressors, these kits add valuable oxygen to your pond while remaining quiet and inexpensive to operate. All kits include: 2" round air stones, flexible black vinyl airline and check valves. Designed for outdoor use. Includes 6' grounded power cord. 1-year warranty.

SPECS:	PondAir 2	PondAir 4
Recommended Pond Size	1,000 Gallons	2,000 Gallons
Number of Air Stones	2	4
30' Rolls of Airline	2	4

TrueRock® Sizing Guide

Find the Rock to Suit Your Needs!

- 1 Measure the max dimensions of the object you are trying to cover.
- 2 Match the max height of your object to the chart on the right. If you cannot find your height, choose the next largest height listed.
- 3 Go across the row and find the dimensions that are LARGER than the max length and max width of your object.
- 4 More than one TrueRock may fit your object. Choose the rock that fits your landscape best!

Mechanical Control

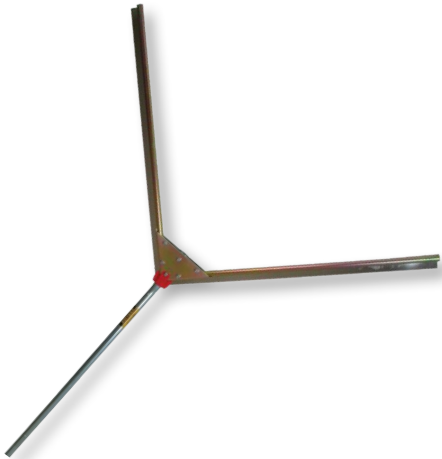

Managing pond weeds and muck accumulation can be a real challenge, but having the right pond tools will make the job easier. Our industry-leading pond weed cutters feature a unique V-shaped design with razor-sharp blades, made for slicing through just about any type of rooted aquatic vegetation. Once cut, remove vegetation from the water with a pond rake. To prevent future aquatic weed growth and to reduce muck buildup, use our underwater tiller that features hooked teeth that dig out stubborn aquatic weeds and churn up debris.

CUT IT

Slice through vegetation with the Weed Razer, quickly shearing weeds at the base. Weed Razers are a safe, chemical-free, effective method of controlling lake and pond weeds.

The Original Weed Razer

Features adjustable blades. Clears paths from 30" to 62"!

The Weed Razer Pro

Model	Blade Width	Rope Length	Best Use
Original	48"	25'	Great for general pond upkeep
Pro	30-62" Adj.	25'	Adjustable for light to heavy growth

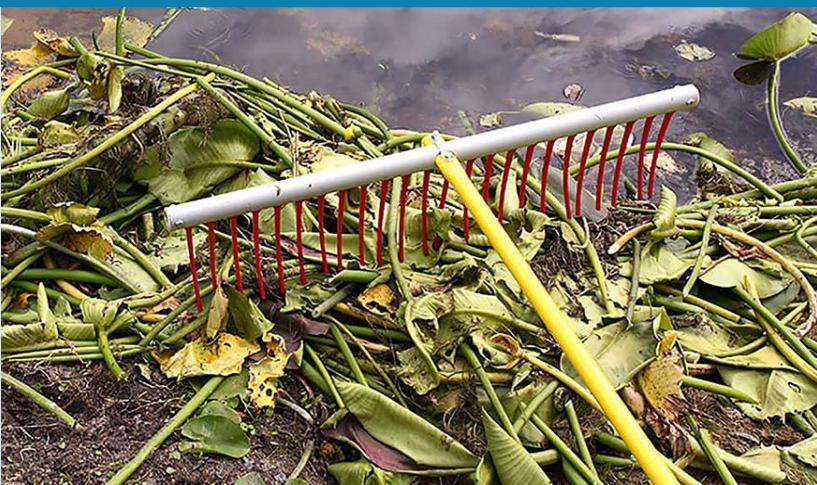

Weed Razer®

Cut Through Your Lake & Pond Weeds in Just Minutes

These unique V-shaped weed cutters with razor-sharp blades are made to cut or shear just about any type of rooted aquatic vegetation such as milfoil, lily pads, pond weeds and even cattails. For weeds farther into the pond, the included rope can be thrown and retrieved from up to 25'. Includes 5' handle, 25' rope and blade sharpener. The Weed Razer is available in two models: The original 48" wide Weed Razer and the 62" Weed Razer Pro. The Weed Razer Pro comes pre-assembled with adjustable blades. When vegetation growth is light, use at full 62" width. For thick or heavy growth, adjust the blades to as little as 30" making removal more manageable

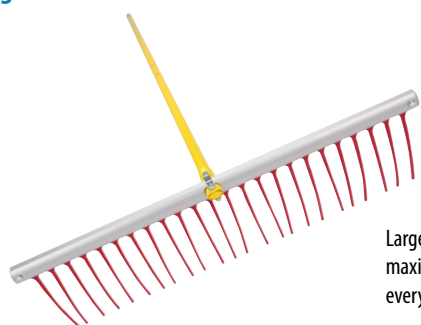

- #580110 - 48" Weed Razer Original
- #580113 - 30-62" Adjustable Weed Razer Pro

RAKE IT

Remove cut vegetation, unrooted plants and algae with the Weed Raker and Razer Rake.

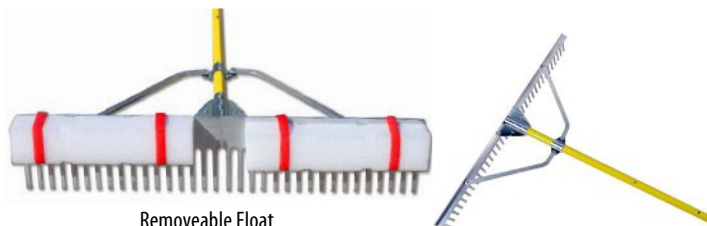

Large tines allow for maximum removal with every toss.

Weed Raker™

Remove Pond Weeds That Cause Pond Muck

Get to the root of your lake or pond weed problem with the longest, widest, deepest aquatic lake rake in the industry. With the 37" wide rake head, long 8" teeth, and sturdy aluminum handle, the Weed Raker can easily remove the tangled roots of aquatic vegetation. Removing vegetation before it decomposes will greatly reduce pond muck. Includes 11' handle and 43' rope.

#580111 - Weed Raker

Removeable Float

Razer Rake™

3-in-1 Collapsible Pond and Beach Rake

This 36" wide, versatile rake assembles easily with push button snap connectors. The razor-sharp teeth make it perfect for digging, cutting and mechanical removal of weeds, algae, muck and debris. The 9' aluminum handle extends your reach for shoreline debris. Cast and retrieve by attaching the included 25' rope and detachable floats for a smooth toss. Finally, finish the job by using it as a professional-grade landscaping rake excellent for dressing beach sand! Collapsible for convenient storage.

#580130 - Razer Rake

PREVENT IT

Dig out rooted aquatic vegetation and eliminate muck accumulation with the Muck Razer.

Muck Razer™

The Ultimate Underwater Tiller

Designed with hooked teeth made of galvanized steel, the Muck Razer will help reduce muck and dig out the roots of aquatic weeds, giving you clean, weed-free swimming and beach areas. Easy to use, simply place the drum into the water and push back and forth across any muck or submerged aquatic vegetation. This agitation aerates the muck layer allowing natural bacteria such as MuckAway® to accelerate muck decomposition helping to produce a firm pond bottom. Regular use of the Muck Razer will prevent the regrowth of aquatic plants. The Muck Razer may also be used on beaches to remove terrestrial plants while fluffing the sand. Includes 12' three-piece handle, 24" x 6" dia. drum and heavy-duty galvanized steel teeth.

#580136 - Muck Razer

Pond & Lake Treatments

We supply a full line of products for proactive and reactive pond management. Airmax features natural water treatments to improve water clarity and reduces muck and foul odors. Our bacteria products and dyes can restore water quality and natural beauty with simple applications. If you're struggling with weeds and algae, we have reactive treatments to help you reclaim your pond or lake.

EcoBoost® PRx

Natural Phosphate Control

EcoBoost PRx is a proprietary blend of naturally occurring phosphate binders designed to permanently bind free reactive phosphorus (FRP). Natural phosphate binders work within the water column to clear up cloudy or murky water resulting from storm runoff, chemical fertilizers, and organic decomposition. EcoBoost PRx will not affect pH. Eliminates the need for heavy metal treatments. No water use restrictions, and safe for use in lakes, ponds, and lagoons. 5-Year shelf life.

How to Use: Initial or Reset Application: Use 10 lb (20 scoops) of EcoBoost PRx per 1/4 surface acre early in the season or when poor water quality issues exist. Maintenance Application: Use 1 lb (2 scoops) of EcoBoost PRx per 1/4 surface acre every 2 weeks.

#530482 EcoBoost PRx Pro, 40 lb.

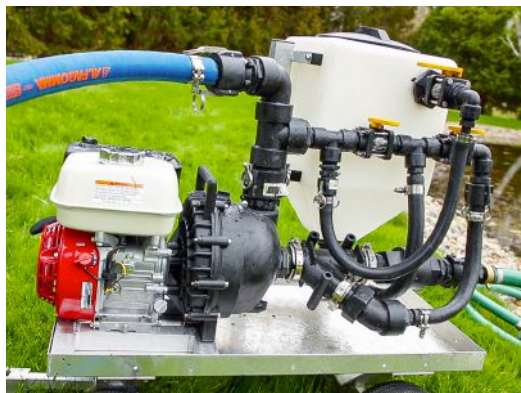

Airmax Pro Sprayer

Professional Application of EcoBoost PRx

The Airmax Pro Sprayer is designed for even application of EcoBoost PRx, but it can also be used with any other liquid or granular algaecides and herbicides that need constant agitation and suspension within the tank. The 10-gallon hopper-style tank prevents settling and ensures all the product is used throughout the application. The sprayer covers distances of up to 50 feet.

#530390 5.5 HP Pro Sprayer With Cart

#530391 5.5 HP Pro Sprayer Without Cart

PondClear™ PRO

Pond Clarifying Natural Bacteria

- Natural Bacteria, Enzymes & Phosphate Binder
- Improves Water Quality & Controls Odors
- Binds Phosphates for Long-Lasting Water Clarity

PondClear PRO is the industry-leading, most effective, proven solution in water clarity. Developed from over 20 years of research and comprehensive field studies, PondClear PRO highly concentrated beneficial bacteria work by consuming suspended organics and binding phosphates to deliver clean water and eliminate noxious odors. PondClear PRO includes a maintenance dose of EcoBoost PRx, a proprietary blend of naturally occurring phosphate binders designed to permanently bind Free Reactive Phosphorus (FRP).

PondClear PRO utilizes BioMax™ Technology, a proprietary formulating process developed by Airmax. The BioMax process starts with analyzing the DNA of bacteria to ensure the correct bacterial strain is selected depending on the application. Through this process, as well as extensive research and field testing, Airmax has selected exclusive beneficial bacteria strains that are the most effective in clearing debris from the water column and eliminating noxious odors. Those powerful strains make PondClear PRO the industry leader in water clarity. PondClear PRO is rigorously tested to maintain the highest quality. No water use restrictions, and safe for use in lakes, ponds, and lagoons. 5-Year shelf life.

How to Use: PondClear PRO packets are water-soluble and may be applied directly to the water or dissolved in a tank sprayer. Use 2–4 lb (4–8 packets) per surface acre. If waterbody is highly eutrophic, use 6–8 lb (12–16 packets) per surface acre until the waterbody is under control. Repeat application every 2–4 weeks when water temperatures are above 50°F.

#530481 PondClear PRO, 25 lb.

MuckAway[®] PRO

Muck Reducing Bacteria

- Eliminates up to 2 Inches of Muck Each Month
- Proven Results in Laboratory and Field Studies
- Safest & Most Effective Natural Product

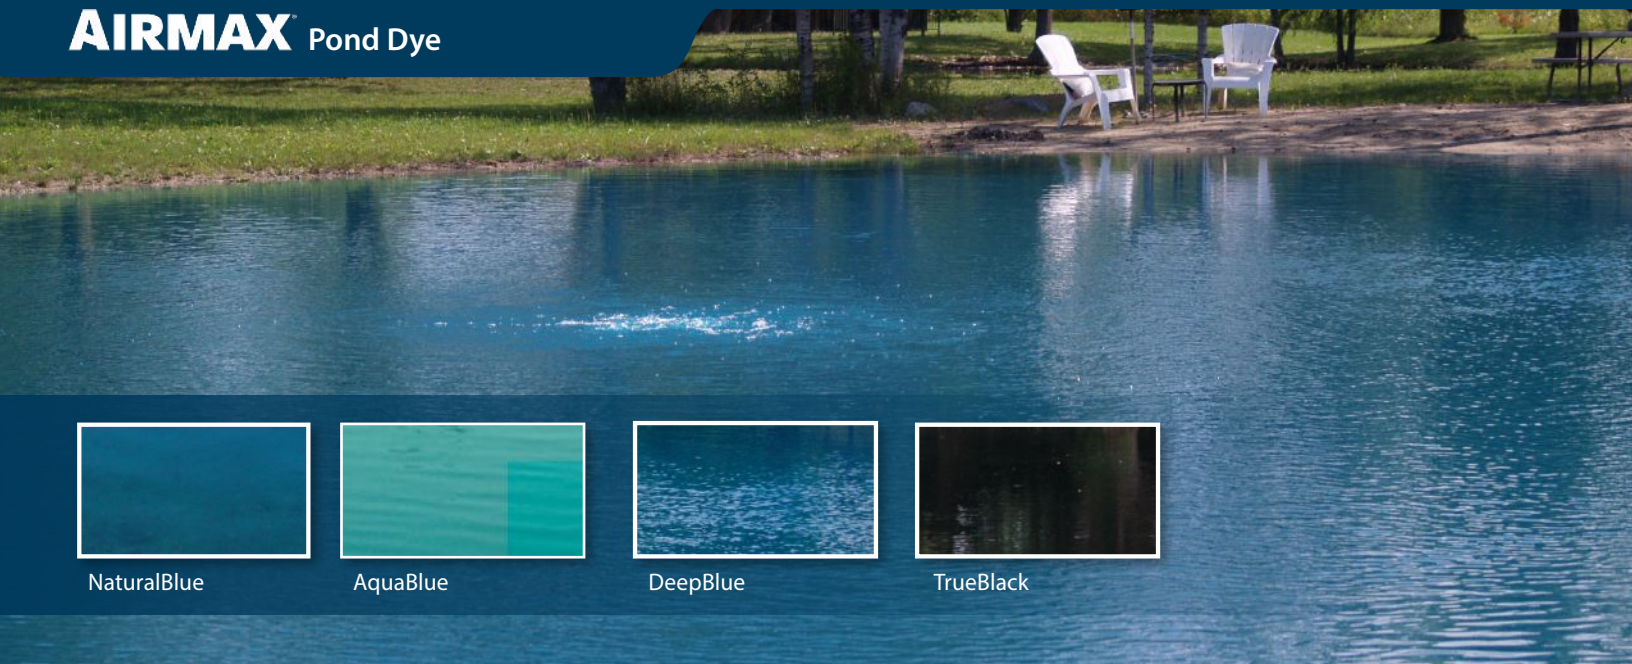

MuckAway PRO is the industry-leading, most effective, proven solution in muck reduction. Developed from over 20 years of research and comprehensive field studies. The highly concentrated bacteria formulation rapidly consumes muck, converting it to an odorless gas that escapes unnoticed out of the water column.

MuckAway PRO utilizes BioMax™ Technology, a proprietary formulating process developed by Airmax. The BioMax process starts with analyzing the DNA of bacteria to ensure the correct bacterial strain is selected depending on the application. Once this process is complete, the bacteria are paired with specific micronutrients and enzymes to maximize the effectiveness of the formula while allowing it to work consistently in a wider range of environments.

Through this process, as well as extensive research and field testing, Airmax has selected exclusive beneficial bacteria strains that are the most effective in pond muck reduction. Those powerful strains make MuckAway PRO the industry leader in muck and pond sludge reduction. MuckAway PRO is rigorously tested to maintain the highest quality. No water use restrictions, and safe for use in lakes, ponds, and lagoons. 5-Year shelf life.

How to Use: Broadcast MuckAway PRO by hand or spreader. Smaller pellet sizes can easily be applied with a boat-mounted spreader. For less than one acre or spot treatments, use 0.5–1 lb per 1,000 sq ft every 2–4 weeks. For total lake treatment or more than one acre, use 10–12 lb per surface acre every 4 weeks. Apply when water temperatures are above 50°F.

Concentrated Quart Treats Like One Gallon

Professional strength dye available in ready-to-use, 4x concentrated liquid quarts. Choose from three colors. NaturalBlue gives a vibrant blue hue that contrasts perfectly with lush green landscaping. DeepBlue maintains a darker blue tone for a more natural look. TrueBlack creates a mirrored surface with an alluring blackish-blue tint. Apply 10–14 fl oz per acre-foot. No mixing required. More dye may be added to maintain desired coloration.

#530414 NaturalBlue, 1 Quart

#530418 DeepBlue, 1 Quart

#530415 TrueBlack, 1 Quart

Airmax Pond Dye Gallons

Large-Capacity Liquid Concentrate

Ideal for lakes and large pond applications. Adding pond dye will shade and protect the pond from powerful UV rays while cooling the water temperature. Choose from two colors. AquaBlue provides an appealing aqua-blue appearance, and DeepBlue maintains a darker blue tone for a more natural look (2.5 gallon only). Apply 10–14 fl oz per acre-foot. No mixing required. More dye may be added to maintain desired coloration.

#530204 NaturalBlue, 1 gal

#530413 AquaBlue, 1 gal

Airmax Pond Dye Packets

Easy-to-Apply Water Soluble Packet

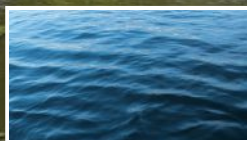

Pond dye can be applied throughout the year as part of a proactive management approach to keep ponds and lakes beautiful. Choose from two colors, NaturalBlue or TrueBlack. Evenly distribute 1–2 water soluble packets (WSP) per 2–3 acre-feet, 4–6 ft deep. No mixing required. More dye may be added to maintain desired coloration.

#530419 NaturalBlue WSP, 32 Packets

#530420 TrueBlack WSP, 32 Packets

NaturalBlue

DeepBlue

Pond & Lake Water Soluble Packets DIY Pond Colorant

- Easy to Use, Convenient Water Soluble Packets
- Safe for All Aquatic & Domestic Life

Protect and shade ponds with pond dye. Provide a vibrant blue color with NaturalBlue. No mixing required. Apply every 4–8 weeks or as needed.

CC222-4

NaturalBlue WSP, 4 packets

2 Packets Treats 1 Acre, 4'– 6' Deep

Pond & Lake Liquid Dye DIY Pond Colorant

- Easy to Use, Convenient Water Soluble Packets or Gallon Treatments
- Available in Two Colors
- Safe for All Aquatic & Domestic Life

Protect and shade ponds with pond dye. Provide a vibrant blue color with NaturalBlue, or provide a dark blue color with DeepBlue. No mixing required. Apply every 4–8 weeks or as needed.

CC220-1G

NaturalBlue Liquid Dye, 1 gal

Treats 1 Acre, 4'– 6' Deep

CC221-1G

DeepBlue™ Liquid Dye, 1 gal

Treats 1 Acre, 4'– 6' Deep

MuckOut™ DIY Muck Reducing Beneficial Bacteria

- Reduces up to 2" of Muck Per Month
- Great for Beaches, Docks, Shorelines or Total Pond & Lake Treatments
- Highly Concentrated Natural Bacteria & Enzyme Formulation
- All Natural & Safe for All Aquatic Life

MuckOut natural bacteria are precision release pellets that sink to the bottom of the pond to digest and convert muck into an odorless gas. MuckOut is perfect for both total pond care and spot treating areas such as beaches or shorelines. Use 16 tablets to treat up to ¼ acre every two weeks or to treat 2000 sq. ft. of shoreline every two weeks when water temperatures are above 50°F. MuckOut is 100% natural and safe for all aquatic and domestic life.

#CC200-6	MuckOut, 6 lbs, 96 Tablets	Treats 1/4 Acre for up to 3 Months
#CC200-24	MuckOut, 24 lbs, 384 Tablets	Treats 1 Acre for up to 3 Months

ClearOut™ DIY Pond Clarifying Natural Bacteria

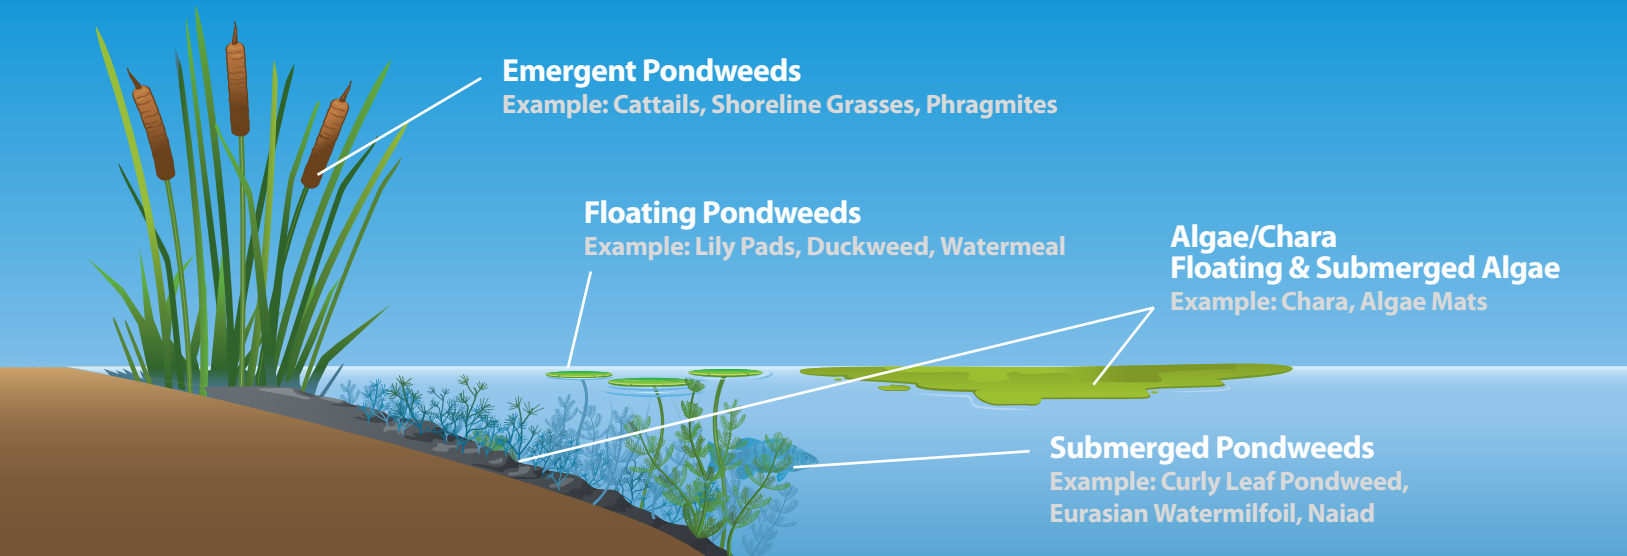

- Clears Water & Supports a Balanced Ecosystem
- Eliminates Nutrients, Odors & Suspended Organics
- All Natural & Safe for All Aquatic Life
- Easy to Use Water Soluble Packets

Keep your pond crystal clear all season long with ClearOut natural bacteria. ClearOut removes excess nutrients and suspended organic waste to improve overall water clarity. Use 2 packets for areas up to 1/4 surface acre every 2 weeks when water temperatures are above 50°F. ClearOut is 100% natural and safe for all aquatic and domestic life.

#CC210-6	ClearOut, 6 lbs, 12 packets	Treats 1/4 Acre for up to 3 Months
#CC210-24	ClearOut, 24 lbs, 48 packets	Treats 1 Acre for up to 3 Months

Select the Right Airmax Product for Your Pond or Lakefront

Step 1 | Determine Where the Problem Plants are Located

Use the diagram above to help identify where your plants are growing. Below are some common examples from each category.

Algae/Chara Floating & Submerged Mats, Musky Odor, Mats on Surface

Bottom Algae

Emergent Weeds Perimeter Nuisances with Submerged Roots

Cattails

Floating Weeds Found in Shallow Water

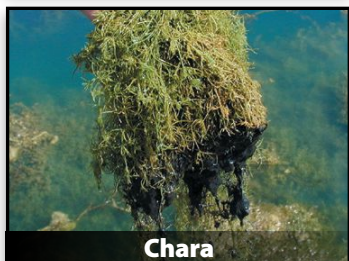

Watermeal

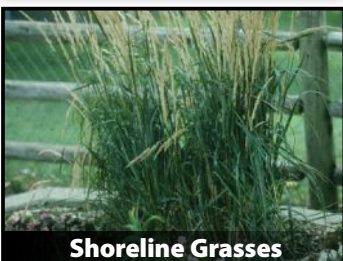

Submerged Weeds Deep Roots Make for Tough Kill

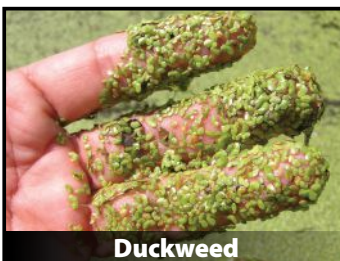

Curly Leaf Pondweed

Chara

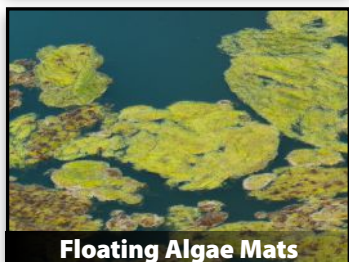

Shoreline Grasses

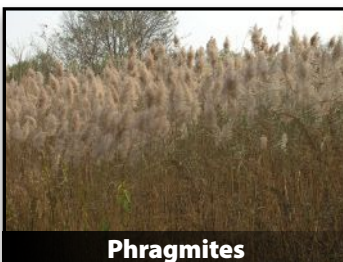

Duckweed

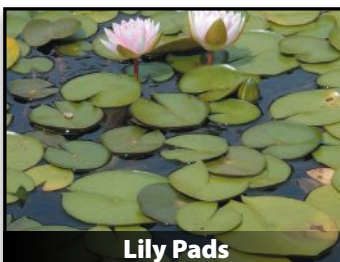

Eurasian Watermilfoil

Floating Algae Mats

Phragmites

Lily Pads

Naiads

Product Used: **WipeOut Defense**

Step 2 | Match Weed Type to Product to Determine Best Treatment

Step 3 | Review Water Use Restrictions

Product	Floating Algae	Bottom Algae/Chara	Emergent Weeds	Floating Weeds	Submerged Weeds	Irrigation	Swimming	Livestock	Drinking
Shoreline Defense Liquid	—	—	Excellent	Good	—	None	None	None	None
Algae Defense Liquid	Excellent	Good	—	—	—	None	None	None	None
EasyKlear Defense Granular	Good	Excellent	—	—	Excellent	None	None	None	See Label
KnockDown Defense Liquid	Excellent	Fair	Good	Excellent	Good	5 Days	None	None	None
Ultra PondWeed Defense Liquid	—	—	Good	Good	Excellent	5 Days	None	1 Day	3 Days
WipeOut Defense Liquid	—	—	Fair	Excellent	Excellent	30 Days	None	None	None

**Chart above provides recommendations. Always follow complete label instructions for application, dosage, and restrictions.*

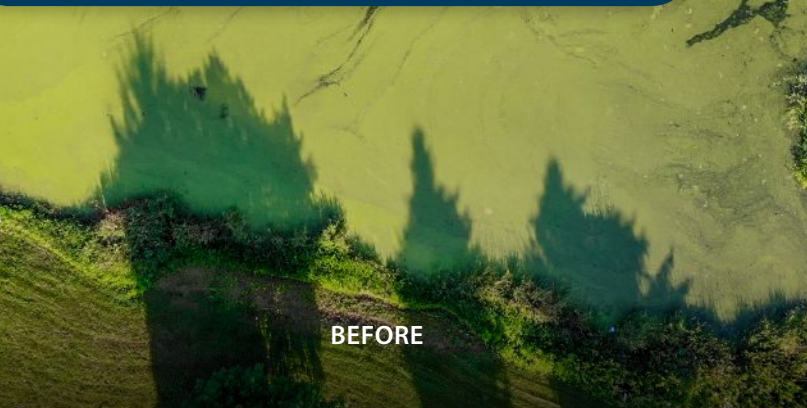

Tips From an Airmax Professional

1. For Season-Long, Whole-Pond Weed Control: If applied in the spring at the first sign of weed growth, Airmax WipeOut will control your persistent pond weeds all season long! Airmax WipeOut is a popular systemic fluridone herbicide that controls pond weeds slowly by starving them of nutrients, all without a rapid oxygen depletion or a fish kill.

2. For Spot Treatment/Lakefront: Selecting the right Airmax product will allow you to target specific nuisance weeds growing along your dockside, lakefront or shoreline. It is best to start treatment when you first identify a problem, as rampant weed growth can choke the life out of the delicate pond ecosystem if action is not taken.

3. Choose the Right Application Tool: Having the right tool for the job can make all the difference. For liquid Airmax treatments, use a tank sprayer that allows for better control and greater reach. For granular Airmax treatments, select a spreader that offers adjustable and consistent application.

Bonus Tip: For even better results, use Airmax Treatment Booster Plus with any of the liquid products above. Treatment Booster Plus is a surfactant that breaks down the surface of a plant, allowing for more efficient chemical penetration.

BEFORE

AFTER

Product Used: **KnockDown Defense**

KnockDown[™] Defense[®]

Algae & Aquatic Weed Control — Flumioxazin

- Eliminates Floating Algae, Duckweed, Watermeal, and More
- Effective in Slow Moving or Inactive Water

KnockDown Defense provides fast control of tough invasive weeds such as duckweed, watermeal, fanwort, hydrilla, as well as algae. KnockDown is an EPA-registered liquid herbicide that contains 42% of the active ingredient Flumioxazin. Ideal for controlling algae and submerged aquatic weeds in ponds and lakes. Effective in slow-moving or quiescent waters such as bayous, canals, drainage ditches, reservoirs, and marshes. KnockDown is very versatile and breaks down quickly in water without accumulating in the sediment or clogging application sprayers.

How to Use: Mix Airmax KnockDown Defense and Treatment Booster Plus with water in a tank sprayer according to label instructions. Spray onto floating weeds and algae, or place the tip beneath the water's surface. Always read product label before use.

Water Use Restrictions: 5-day irrigation restriction.

State Shipping Restrictions: KnockDown Defense cannot be shipped to AK, CA, CT, DC, HI, MA, ME, NJ, NY, PR, RI, VT, WA, or Canada.

#530268

KnockDown Defense Algae & Aquatic Weed Control 16 fl oz

WipeOut[™] PondWeed Defense[®]

Liquid Herbicide — Fluridone

- Controls Persistent Pond Weeds All Season
- Treats Entire Body of Water in a Single Application
- Effective Herbicide for Floating & Submerged Weeds

WipeOut PondWeed Defense is an herbicide for management of aquatic vegetation in fresh water ponds, lakes, reservoirs, potable water sources, drainage canals and irrigation canals. Airmax WipeOut PondWeed Defense Aquatic Herbicide contains fluridone, the same active ingredient found in Sonar A.S. and Avast! SC Aquatic Herbicide.

How to Use: Mix 3.8 fl oz of WipeOut with water in the included container and apply to the pond in several spots from the shoreline. 3.8 fl oz treats a 1/8 surface acre pond with an average depth of 4 ft. Always read product label before use.

Water Use Restrictions: WipeOut PondWeed Defense carries a 30 day irrigation restriction.

State Shipping Restrictions: WipeOut PondWeed Defense cannot be shipped to AK, CA, CT, DC, HI, ME, NJ, NY, PR, VT, WA or Canada.

#530250

WipeOut PondWeed Defense - 4 fl oz

Treats a 1/8 Surface Acre Pond

#530251

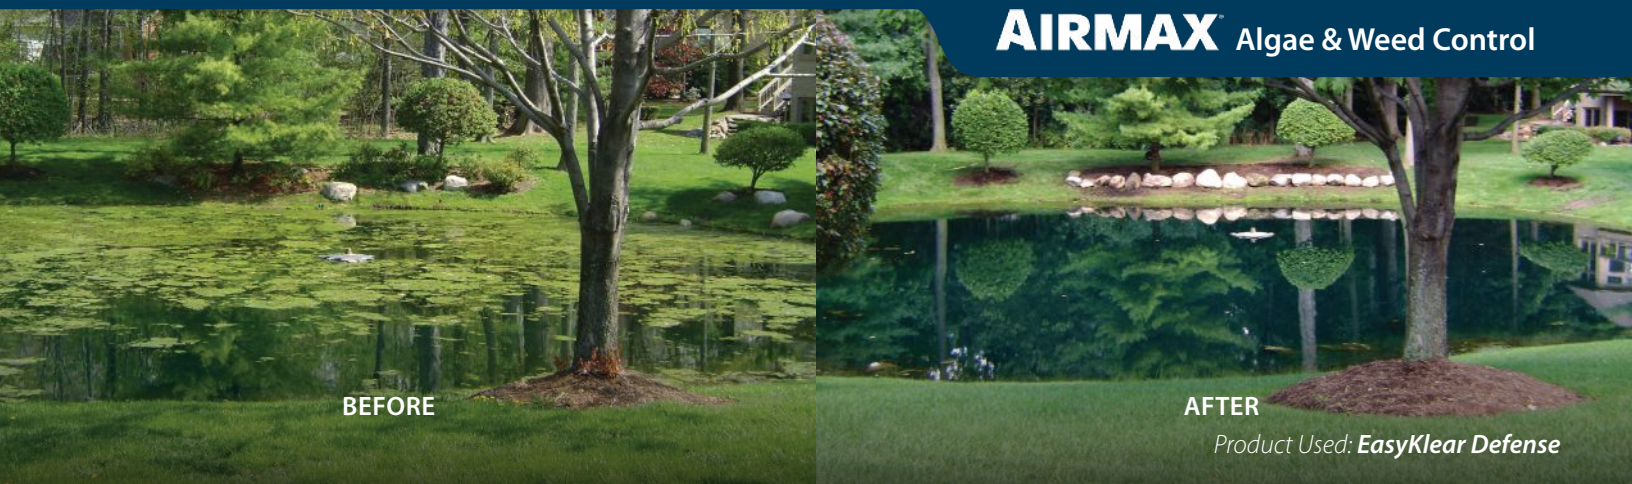

WipeOut PondWeed Defense - 8 fl oz

Treats a 1/4 Surface Acre Pond

**Avast[®] SC and Sonar[®] A.S. are registered trademarks of SePRO Corp. Airmax WipeOut PondWeed Defense Aquatic Herbicide is not manufactured or distributed by SePRO Corp, the manufacturer and seller of Sonar A.S. and Avast! SC Aquatic Herbicide.

BEFORE
AFTER
Product Used: EasyKlear Defense

EasyKlear® Defense® 2 in 1 Granular

Fast-Acting and Long-Lasting Broad Spectrum Weed Control — Endothall Salt

- Great for Bottom Growing Algae, Chara & Submerged Weeds
- Control Weeds Surrounding Docks & Shorelines
- Easy-to-Use Aquatic Algaecide & Herbicide

EasyKlear Defense 2 in 1 Granular is easy to use, works fast and provides long-lasting results. Works on floating and submerged algae, including Chara, along with a broad spectrum of submerged weeds. Works great in ponds, lakes, and even in areas with flowing water, such as a dock area or canal. EasyKlear takes the guesswork out of pond and lake treatments.

How to Use: Evenly broadcast ready-to-use granular in the area to be treated using a granular spreader. Always read product label before use.

Water Use Restrictions: 7–25 days livestock/domestic, human consumption. 7 days for irrigation on annual nursery or greenhouse crops. There are no turf irrigation restrictions. Not for use in water garden or koi ponds.

State Shipping Restrictions: EasyKlear Defense cannot be shipped to AK, AZ, CA, CT, DC, HI, MA, ME, NJ, NY, PR, RI, VT, WA, or Canada.

#530267 EasyKlear Defense, 15 lb

Algae Defense®

Kills Algae Fast — Copper Triethanolamine Complex

- Works on Both Floating & Submerged Algae
- Fast-Acting

Algae Defense is a broad spectrum algaecide that works fast. Algae Defense works as a quick fix to eliminate algae problems. Algae Defense works best when water temperatures reach at least 60°F. Unless steps are taken to reduce the overall nutrients in the pond, multiple applications may be needed for a full season of control.

How To Use: Mix 32 fl oz of Algae Defense, 6 fl oz Treatment Booster Plus, and 2.5 gallons of water in a tank sprayer to treat up to 2,000 sq ft. Spray algae directly. Only treat up to half of the pond's surface, waiting 10 to 14 days before treating the second half. Always read product label before use.

Other Restrictions: Do NOT use in ponds with koi, goldfish or trout unless carbonate hardness (KH) is above 50 ppm. If the pond contains koi, goldfish, or trout, AlgaeOff is recommended.

State Shipping Restrictions: Algae Defense cannot be shipped to AK, CA, CT, DC, HI, ME, NJ, NY, PR, RI, VT, WA or Canada.

#530130 Algae Defense, 1 gal (128 fl oz) Treats up to 8,000 sq ft

BEFORE

AFTER

Shoreline Defense[®]

Broad Spectrum Emergent Weed Control — *Glyphosate*

- Kills the Roots of Even the Most Persistent Weeds
- Works Great on Cattails, Phragmites, Lilies, Purple Loosestrife & Other Emergent Weeds
- Perfect for Cleaning up Beaches & Shorelines

When persistent emergent weeds are a problem, Shoreline Defense takes care of it. Shoreline Defense is perfect for nuisance cattails, phragmites or other emergent weeds as it not only kills the foliage, it kills the roots for long-term control. For best results, use with Treatment Booster Plus.

How to Use: Mix 8 fl oz of Shoreline Defense, 4 fl oz Treatment Booster Plus, and 2 gallons of water in a tank sprayer to treat up to 2,500 sq ft. Spray only on foliage above the water's surface, on a calm day to keep spray contained to target areas. Completely wet foliage surface for best results. Always read product label before use.

Water Use Restrictions: None

State Shipping Restrictions: Shoreline Defense can not be shipped to AK, AZ, CA, CT, DC, HI, MA, ME, NJ, NY, PR, RI, VT, WA, or Canada.

#530157	Shoreline Defense, 1 qt (32 fl oz)	Treats up to 20,000 sq ft
#530167	Shoreline Defense, 1 gal (128 fl oz)	Treats up to 80,000 sq ft

Treatment Booster Plus[®]

Pond Treatment Enhancer

- Surfactant Increases Chemical Effectiveness
- Allows Treatment to Penetrate Protective Surface of Aquatic Weeds

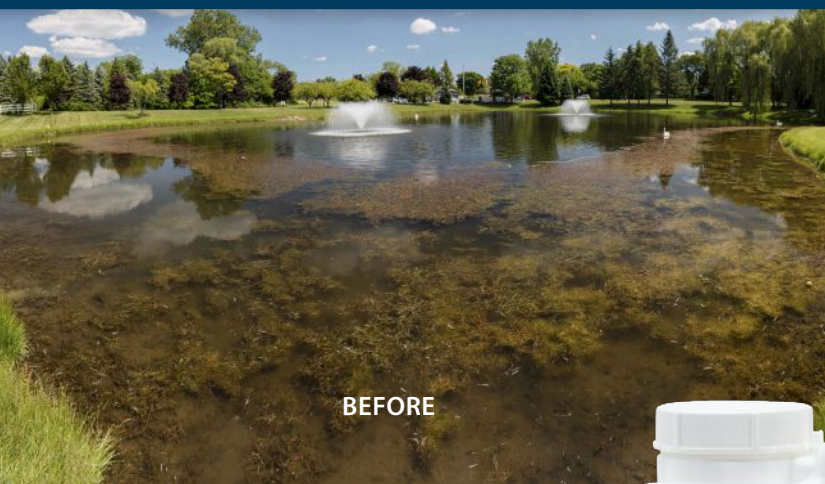

Specially formulated to enhance the effectiveness of pond treatments, Treatment Booster Plus helps adhere the treatment to the target aquatic weed. After adhering to the target, Treatment Booster Plus works further to allow the treatment to penetrate the aquatic weed's protective surfaces for maximum treatment exposure. Treatment Booster Plus has also been enhanced to work on underwater weeds and algae by breaking the water's surface tension.

How to Use: Mix 2 fl oz of Treatment Booster Plus with every gallon of treatment solution (chemical & water mixture).

Water Use Restrictions: None

#530172	Treatment Booster Plus, 1 pint (16 fl oz)
#530192	Treatment Booster Plus, 1 gal (128 fl oz)

BEFORE

AFTER

Ultra PondWeed Defense®

Broad Spectrum Pondweed Control — *Diquat dibromide*

- Works on All Pondweed Including Floating, Submerged & Emergent
- Provides Short Term Control of Duckweed
- Fast-Acting Liquid Aquatic Herbicide

Ultra PondWeed Defense is a broad spectrum aquatic herbicide that works on all pondweeds including submerged, floating and emergent weeds. Ultra PondWeed Defense may also be used for short-term control of duckweed. For best results, use on actively growing plants. Emergent treatments may require additional applications to gain full control. For best results, use with Treatment Booster Plus.

How to Use: Mix 16 fl oz of Ultra PondWeed Defense, 4 fl oz Treatment Booster Plus, and 1.5 gallons of water in a tank sprayer to treat up to 2,500 sq ft. Spray target directly. Only treat up to half of the pond's surface, waiting 10 to 14 days before treating the second half. In hot weather or when fish are stressed, treat $\frac{1}{4}$ to $\frac{1}{3}$ of the pond at a time. For deeper water place the tank sprayer's tip beneath the water's surface. Always read product label before use.

Water Use Restrictions: 3 days drinking, 1 day livestock/domestic animal consumption, 5 day irrigation.

State Shipping Restrictions: Ultra PondWeed Defense cannot be shipped to AK, AZ, CA, CT, DC, HI, ME, NJ, NY, PR, RI, VT, WA or Canada.

#530144	Ultra PondWeed Defense, 1 qt (32 fl oz)	Treats up to 5,000 sq ft
#530154	Ultra PondWeed Defense, 1 gal (128 fl oz)	Treats up to 20,000 sq ft

Water Garden Treatments

CrystalClear has been the proven solution and market leader in water garden treatments for over 20 years, producing unrivaled algae control solutions, natural water treatments, fish care products, and diffused aeration. CrystalClear was founded with a passion for improving how pond owners care for their ponds.

Spring & Fall Prep Cold Water Natural Bacteria With Barley

- **Replenishes Winter Bacteria Loss During Spring Startup**
- **Accelerates Decomposition of Leaves, Twigs & Sediment**
- **Easy to Use Pre-measured Water Soluble Packets**
- **Safe for All Aquatic Life**

Spring & Fall Prep contains cold water natural bacteria designed to accelerate the decomposition of leaves, twigs, muck and other sediment during the fall and winter months while replenishing winter bacteria loss during the spring. Apply weekly to keep your pond looking its best even when water temperatures are between 40°F – 50°F. 12 packets treats 12,000 gallons or a 2,000 gallon pond for up to 6 weeks.

CC026-12	12 pkts	CC026-24	24 pkts
-----------------	---------	-----------------	---------

RapiClear™ Pond Water Clarifier

- **Flocculates & Clears Pond Water**
- **Fast-Acting, Works in as Little as One Hour**
- **Safe for All Aquatic Life**

RapiClear is designed to clear cloudy, discolored pond water quickly, usually within 1–3 hours depending on the size of the pond. RapiClear will quickly restore pond water to a brilliant shine. RapiClear has unique properties that allow suspended particles in water to attract together and fall to the bottom of the pond where they can be vacuumed out or removed by filtration. The result is an extremely fast clearing of the pond.

CC063-16	RapiClear, 16 fl oz	Treats 8,000 Gallons
CC063-32	RapiClear, 32 fl oz	Treats 16,000 Gallons
CC063-1G	RapiClear, 1 gal (128 fl oz)	Treats 64,000 Gallons

PondTint™ Blue & Nite Pond Colorant

- **Shades & Protects Your Pond**
- **Available in Two Colors**
- **Safe for All Aquatic Life**

PondTint is a non-toxic pond dye designed to help keep water sparkling clean and cool. Shaded pond water naturally stays clearer than pond water in full sun. If a pond does not have significant surface plant coverage, it is a good idea to use PondTint in the hot summer months to shade the pond. Available in two colors: PondTint Blue and PondTint Nite (Deep Blue).

CC064-16	PondTint	Blue, 16 fl oz	Treats 16,000 Gallons
CC085-16	PondTint	Nite, 16 fl oz	Treats 16,000 Gallons

Vanish™ Plus Detoxifier Plus Stress Reducer

**Compare to
API Stress Coat™**

- Immediately Removes Chlorine, Chloramine, Heavy Metals & Ammonia
- Adds Fish Slime Coat Protectant
- Safe for All Aquatic Life

Vanish Plus will immediately remove chlorine, chloramine, heavy metals and ammonia. Vanish Plus will also add a slime coat protectant to the water to help fish heal wounds and abrasions while protecting them in times of stress, such as during water changes & clean-outs.

CC015-16	Vanish Plus, 16 fl oz	Treats 3,200 Gallons
CC015-32	Vanish Plus, 32 fl oz	Treats 6,400 Gallons
CC015-1G	Vanish Plus, 1 Gal	Treats 25,600 Gallons

Vanish™ Dechlorinating Granules

3X CONCENTRATED

- Value Formula
- Immediately Removes Chlorine
- Safe for All Aquatic Life

Vanish will immediately remove chlorine that is present in city water supplies. Chlorine is toxic to fish and when left untreated, chlorine can cause gill damage and leave fish unable to breathe. Use Vanish when performing water changes or setting up a new pond.

CC013-2	Vanish Dry, 2 lb	Treats 96,000 Gallons
----------------	------------------	-----------------------

Foam-B-Gone™ Foam Remover

- Removes Foam in Seconds
- For Use in Ponds, Fountains & Statuary
- Safe for All Aquatic Life

Foam-B-Gone will remove foam from water within seconds of application. Foam is usually caused by excessive proteins present in pond water. Protein foam can be harmful and should be removed quickly.

CC060-1G	Foam-B-Gone, 1 gal (128 fl oz)	Treats 128,000 Gallons
-----------------	--------------------------------	------------------------

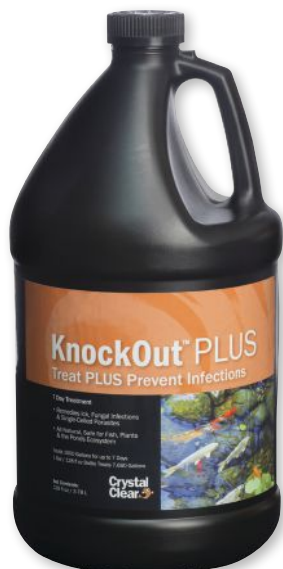

12"x18" Mesh Bag
Included

Polish AC™ Activated Carbon

- Removes Tannins, Chlorine & Odor
- Polishes Water & Removes Microscopic Debris
- Removes Ammonia, Nitrite & Nitrate
- Safe for All Aquatic Life
- Includes (1) Mesh Application Bag

Polish AC is bituminous coal that has been exposed to extreme heat which activates the carbon giving it incredible absorption capacity. The billions of pores within the carbon act as hundreds of sponges soaking in many pond pollutants such as, tannins, ammonia, nitrite and nitrate. The result is a polished, clean pond environment.

CC090-5	Polish AC, 5 lb	Treats 2,000 Gallons
CC090-15	Polish AC, 15 lb	Treats 6,000 Gallons
110900	12" x 18" Mesh Bag	For 5 lbs Activated Carbon

KnockOut™ Plus All Natural Fish Treatment

- **7 Day Treatment**
- **Remedies Ick, Fungal Infections & Single-Celled Parasites**
- **All Natural, Safe for Fish, Plants & the Pond's Ecosystem**
- **Prevents Future Infections**

KnockOut Plus is an all natural fish treatment that eliminates plus prevents external single-celled parasite or fungal infections. KnockOut Plus works extremely well with pond fish species such as koi and goldfish, and unlike most fish treatments, there is no need to remove your filters before treatment. Furthermore, when used routinely, Knock-Out Plus works as a strong preventative treatment. Use any time new fish are added, during pond clean-outs, during spring start-up or any time fish are stressed.

CC136-1G KnockOut Plus, 1 gal (128 fl oz) Treats 1,000 Gallons for 7 Days

WipeOut™ Bacterial Control

- **Controls & Prevents Bacterial Infections**
- **Controls Finrot & Ulcers**
- **Safe for Fish & Plants**

WipeOut bacterial control is excellent for controlling gill diseases in pond and aquarium fish. Bacterial disease generally results from fish stress due to adverse water quality conditions (pH, oxygen or temperature problems), habitat clean-outs, untreated abrasions or predators. WipeOut works extremely well on pond fish species such as koi and goldfish as well as on commonly found aquarium fish species. WipeOut is excellent for controlling and preventing bacteria infections such as finrot and ulcers.

CC131-8 WipeOut, 8 oz Treats 4,800 Gallons

ParaSalt™ Pond Salt

- **Helps Control Common Parasites**
- **Maintains Healthy Slime Coat**
- **Safe for All Aquatic Life**

Electrolytes such as potassium are essential in wound repair and in times of heavy stress (during water changes or clean-outs). ParaSalt is excellent for mucous production when healing from a wound.

ParaSalt will also help ward off and remove most common protozoan parasites found in koi and goldfish such as Dactylogyrus, Byrodctylus, Epistylis, Trichodina and Chilodonella. ParaSalt can be used in a salt bath for heavy infestations or as a routine treatment to keep parasites from entering the pond environment.

CC158-10 ParaSalt, 10 lb Treats 2,000 Gallons

CC158-20 ParaSalt, 20 lb Treats 4,000 Gallons
