Aquascape®

2025 US & CANADA
**WATER FEATURES
CATALOG**

Your Paradise. Our Passion.®

aquascapeinc.com

We connect people to water the way nature intended.

That's why we invented and patented an ecosystem approach to designing, building, and maintaining water features that relies on a natural balance of circulation, filtration, plants, fish, and rocks and gravel to ensure sustainability. Flip through our catalog to enjoy our line of time-tested products like pumps, filters, water feature kits, and more.

Be sure to explore our new line of products for 2025 which includes large Fountain Bowls with accessories, and our extra-large sphere and urn fountains. For great looking pond plants, you'll want to stock up on our new aquatic planters and Once-a-Year Pond Plant Fertilizer. Your waterlilies will reward you with amazing blooms throughout the season!

Aquascape is the only manufacturer of water feature equipment on the planet that builds and maintains water features every day with our own crew! That's why we created the new Rock Pad Sling to make placement of large boulders easier than ever.

We're passionate about sharing our projects and adventures on our various social media channels, so be sure to follow along and be inspired! You'll discover an endless, watery world of creativity.

– Greg Wittstock , The Pond Guy
  Founder and CEO Aquascape, Inc.

When it comes to building work of art, one-of-a kind, custom creations, we don't create with canvas, acrylics, or a paint brush. We use rock, gravel, and water as our media.
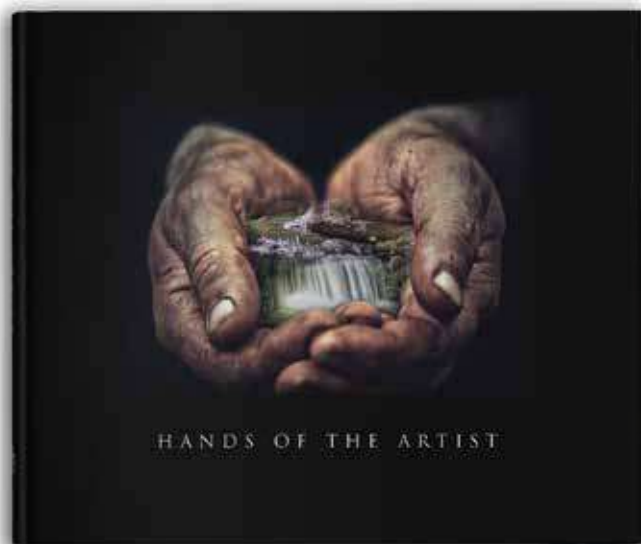

Full-Color, Hardcover Coffee Table Book
Hands of the Artist won't disappoint. Page-by-page and build-by-build, you'll be mesmerised by the stunning artistry of our work.

#86455 Aquascape Hands of the Artist V5
Packaged Weight: 4 lb.
Packaged Dimensions:11.25" L x 10.25" W x 1" H

Table of Contents

Living the Aquascape Lifestyle®

Our passion is to help you create your own personal paradise that incorporates a beautiful pond, waterfall, fountain - or any combination of these refreshing water features.

With decades of experience designing and field-testing water features and their products, you can rest assured that you're getting the best quality for the best value when you choose Aquascape. Flip through the pages of this catalog and be inspired to create your own personal paradise in your very own yard.

Heavy-Duty Aquatic Plant Pots

Ideal for use with waterlilies, aquatic plants, and more! Heavy-duty nylon straps make it easy to lift and maneuver in and out of the pond. See page 128

Once-A-Year Pond Plant Fertilizer

Special time-release fertilizer blend is optimized for water lilies, lotus, and other aquatic plants. See page 127

Capsule and Granular Options

Spillway Bowl, Basin, and Stand

Introducing a sleek, new color: Iron Ore. Available in two sizes. See page 148-149

Fountain Bowl

Get more creative than ever with redesigned patio ponds, shelves, and more! Square and round bowls available in a variety of sizes and colors. See pages 156-157

Add up to 4 shelves

Faux Rock Fish Caves

Provides pond fish shelter from predators, such as herons. Available in two sizes. See page 111

Rock Pad Sling

An easier way to move rocks and boulders on the jobsite. See page 173

Stacked Slate Sphere 6' Dia. (1.8 m)

Add this giant sphere to display features or large scale projects! See page 146

Faux Rock Covers

Cover unsightly landscape or pond components. Available in two sizes. See page 167

EPDM Liner One Sided Cover Tape

See page 186

Pond, Waterfall, and Fountain Kits

Transform your outdoor living space with an Aquascape pond, waterfall, or fountain kit. We've bundled the necessary components into convenient kits, making it easier than ever to create naturally balanced, low-maintenance water features.
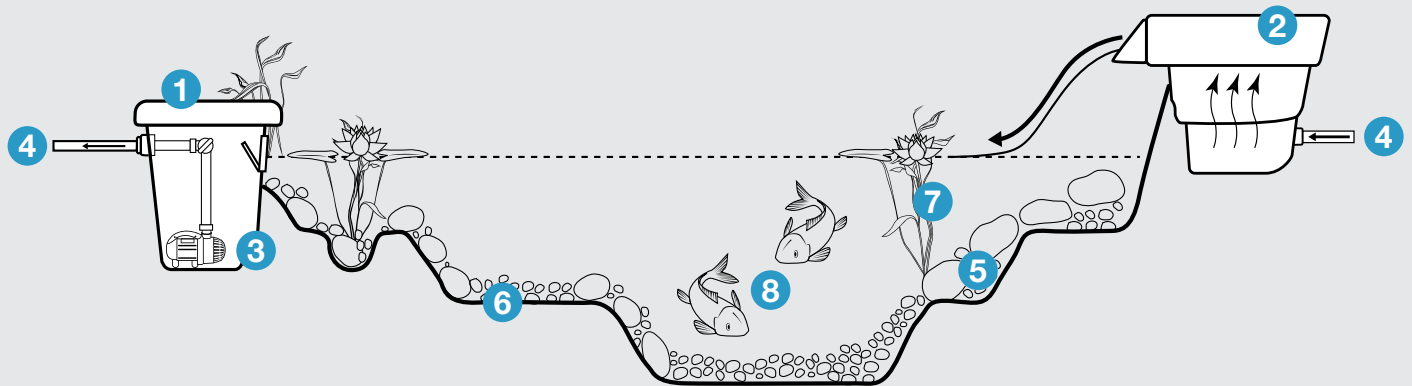

Features

1 Pond Skimmer
Pre-filters water, houses pump, collects debris, and reduces maintenance

2 BioFalls® Filter
Provides surface area for beneficial bacteria to colonize and removes excess nutrients from the water

3 Pond Pump
Pumps water from the pond skimmer to the BioFalls Filter to create a waterfall

4 Pipe
Directs water from the skimmer to the BioFalls Filter

5 Rocks and Gravel (not included)
Protects the liner, naturalizes the pond bottom, and provides surface area for beneficial bacteria to break down excess nutrients

6 Pond Liner and Underlayment
Forms the pond's foundation, containing the water and allowing gases to escape from beneath the pond

7 Plants (not included)
Filter pond water, minimizing maintenance and improving water conditions

8 Fish (not included)
Provide nutrients for pond plants

Kink-Free Pipe
Flexible and resistant to crimping or collapsing

EPDM Liner/Underlayment
Fish-safe, heavy-duty and industry-leading quality and reliability

Pond Filtration
Keeps pond water clean with optimal biological filtration and efficient mechanical filtration

EcoWave® 2000 Pond Pump
Provides ideal flow with unmatched energy efficiency

Deluxe Pond Kits

Include enhancements to take your pond to the next level, including:

– Color-changing lighting system
– Smart control for pump and lights
– Faux Driftwood 30"
– Pond Powerhead

Recreational Pond Kits

Skimmer Intake/Pump Assembly

1 EXT Pond Pump
Ideal for providing recirculating water in recreational ponds that require an external style of pump. The high flow rates of the EXT pumps make them perfect for supplying water to waterfalls, wetland filters, and recirculating water jets.

2 EXT Plumbing Kit
Includes fittings, flanges, valves, and hardware needed to install the EXT pump at the perimeter of the pond's edge.

3 Flexible PVC Pipe
Easy-to-install flexible PVC pipe reduces the need for elbows and couplings to insure maximum water flow, reducing the total dynamic head between the intake bay, wetland filter system, and recirculation jets.

4 Pondless® Waterfall Vault and Extension
The vault is a convenient structure to house the pump intake and piping system while protecting the pump from rock and debris.

5 AquaBlox® Water Storage Modules
AquaBlox® create a structural void space that diffuses the incoming water velocity while effectively removing floating debris from the surface of the pond. The internal web of water matrices thoroughly mixes the water to increase water quality.

6 Smart Pond Dosing System XT
Automatically adds water treatments to keep your recreational pond clean and clear.

Deep Water Recreational Pond

7 Liner, Underlayment, and Rock Pad
The latest technology in water containment creates a flexible waterproof membrane in the skimmer intake/pump assembly, deep water recreational pond, and wetland filter system. Liner paired with specialized geotextiles help to stabilize the subsoils while providing additional structural integrity to protect the membrane from damage. Rock Pads are used with liner and underlayment to provide additional protection under heavy boulders.

K | F | P | A | L | PWR | WT | PC | SC | FC | PPC | D | LUG | PP | IT | RH

Recreational Pond Kits
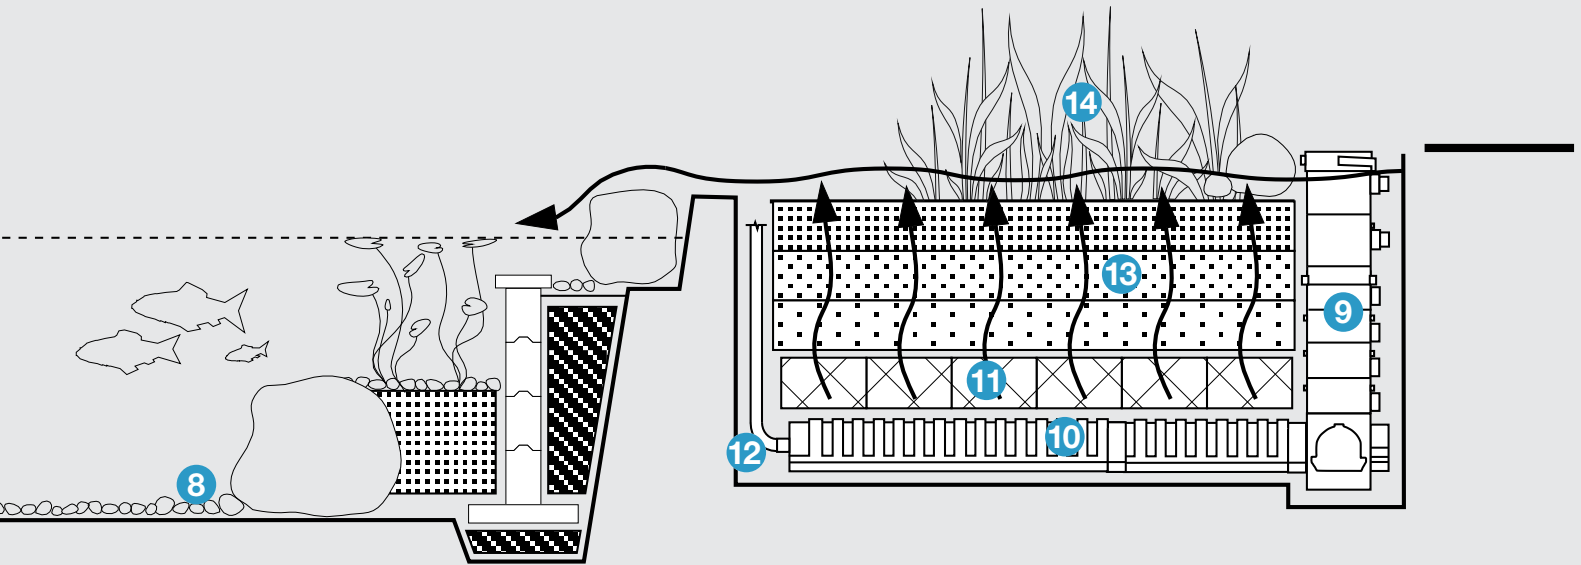

8 Rock, Gravel, and Sand (not included)
Protects the liner, naturalizes the pond bottom, and provides surface area for beneficial bacteria to break down excess nutrients.

Wetland Filtration System

9 Snorkel® Vault, Extensions, and Cap
Provides a convenient access point to the sediment trap for yearly maintenance procedures.

10 Centipede® Module
Positioned at the lowest point of the filter to reduce water velocity by 93%, allowing the sedimentation process to occur.

11 AquaBlox® Water Storage Modules
Provides lateral distribution of water to insure optimal contact with the filter bed while providing uniform distribution of dissolved oxygen.

12 Flexible PVC Pipe
Easy-to-install flexible PVC pipe reduces the need for elbows and couplings to insure maximum water flow, reducing the total dynamic head between the intake bay, wetland filter system, and recirculation jets.

13 Rocks and Gravel (not included)
Specifically graded river rock provides a natural surface for microbial colonization to insure optimal water quality.

14 Plants (not included)
Aquatic plants complete the filtration cycle by capturing and storing the remaining dissolved nutrients from the water column. The root systems penetrate deep within the filter bed, creating a symbiotic relationship with the filter, and mimicking nature's time-tested strategy for healthy aquatic ecosystems.

Pondless® Waterfall Kits
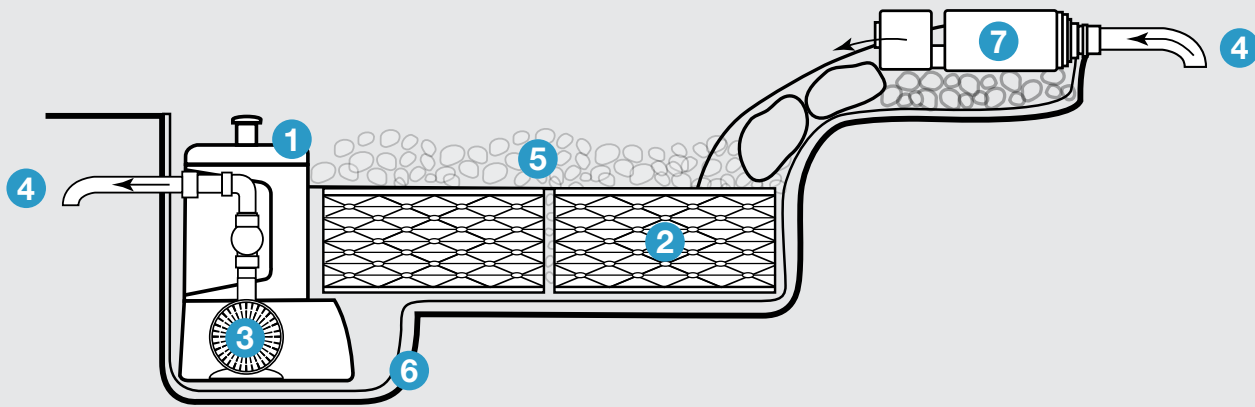

Features

❶ Pondless® Waterfall Vault
Houses and protects pump

❷ AquaBlox® Water Storage Modules
Provides water storage

❸ Pond Pump
Pumps water from the underground reservoir to the spillway to create a waterfall

❹ Pipe
Directs water from the basin/reservoir to the Waterfall Spillway

❺ Rocks and Gravel (not included)
Naturalizes the waterfall, protects the liner, and filters the water

❻ Liner and Underlayment
Creates the form of the waterfall and holds water in the water storage area

❼ Waterfall Spillway
Provides a smooth, flowing waterfall

DIY Backyard Pondless® Waterfall Kit

Pondless® Waterfall Vault
Extremely durable with quick
and easy pump access

**AquaBlox® Water Storage
Modules - Small**
Store up to 17 gallons per module

Kink-Free Pipe
Flexible and resistant to
crimping or collapsing

Waterfall Spillway
Uses internal barriers to
diffuse incoming water

EcoWave® 2000 Pond Pump
Provides ideal flow with unmatched
energy efficiency

Pond and Waterfall Filtration

To keep your pond or water feature looking beautiful, it is important to provide proper filtration.

Patented Faceplate
Allows you to adjust the water level after installation (Signature Skimmer 1000 only)

Faux-Rock Lid
Conceals the filter in the surrounding landscape

Rigid Debris Basket
Makes maintenance easier than ever

Rigid Filter Mat
Effectively removes smaller sediment and debris

Rounded Shape
Provides maximum strength
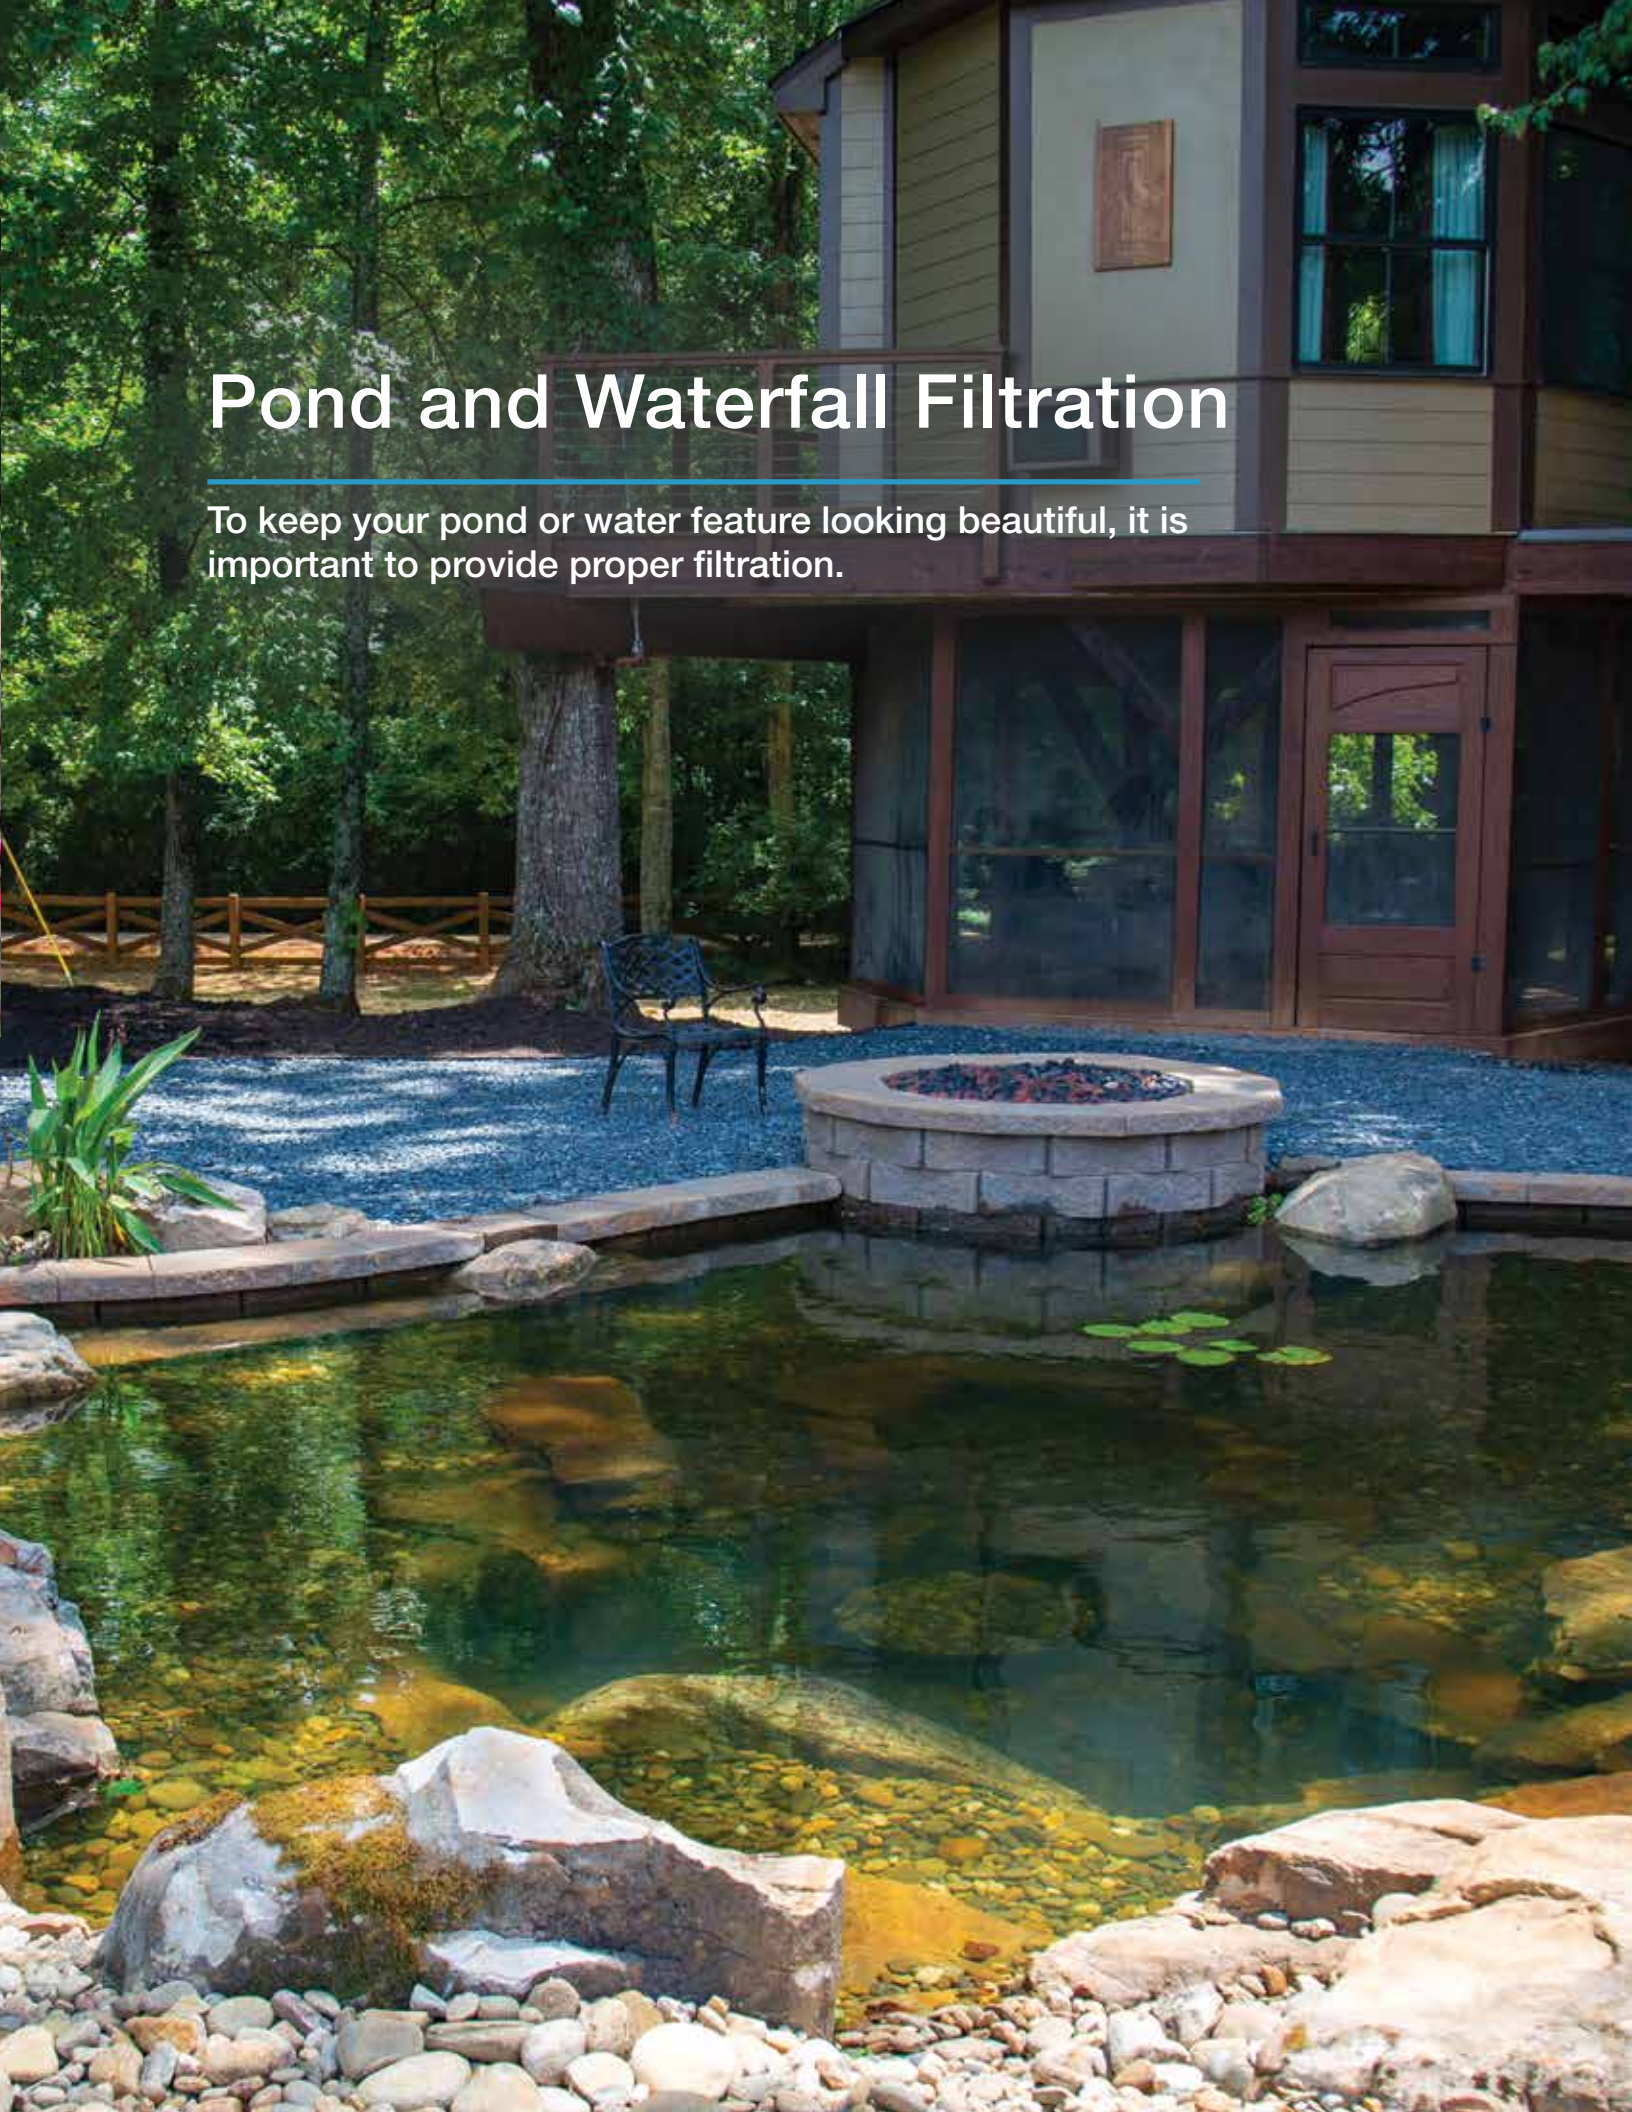

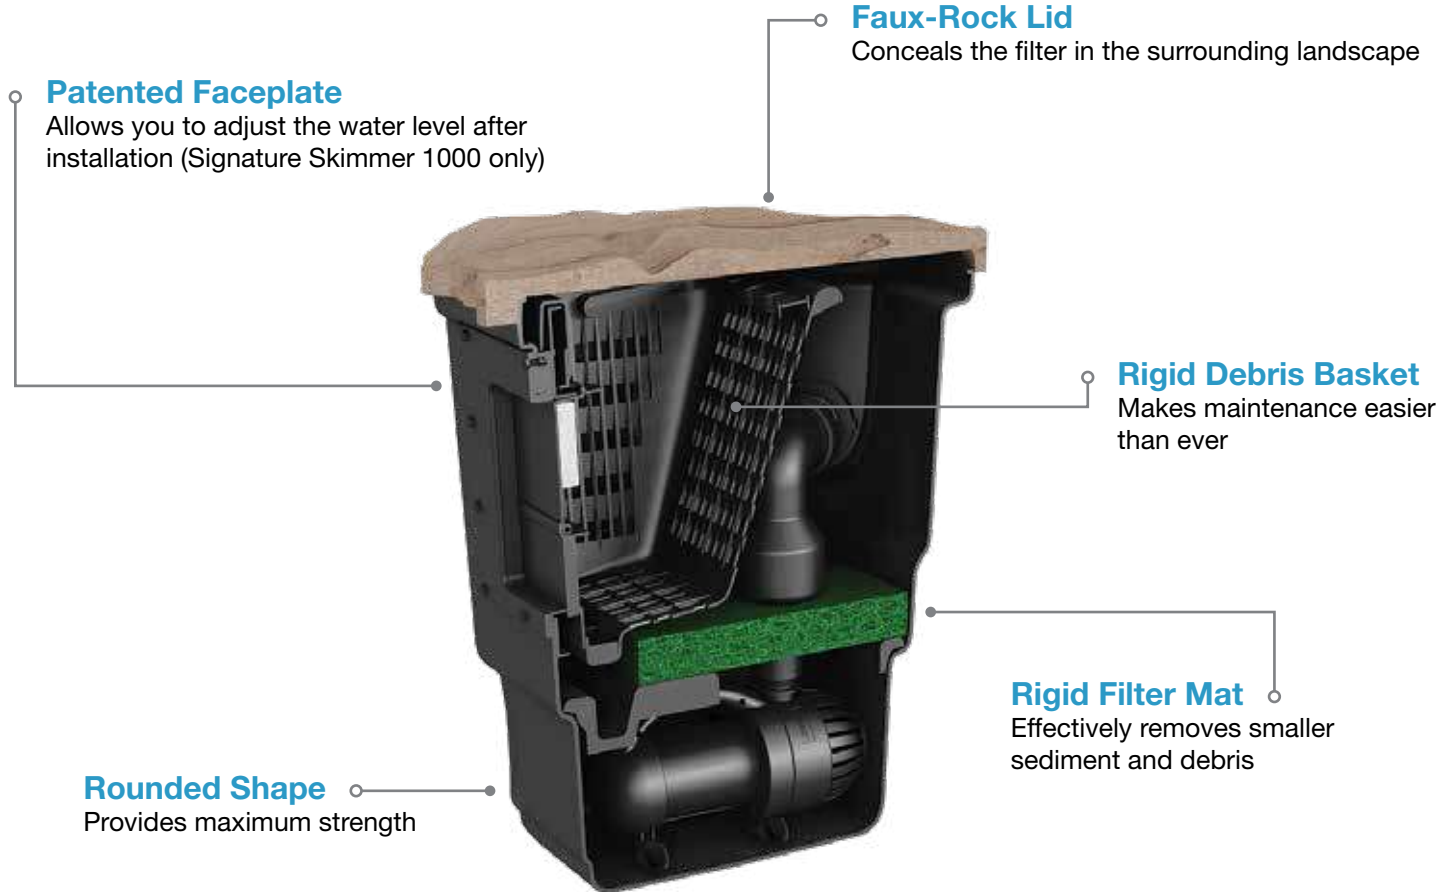

Signature Series 1000 Pond Skimmer Shown
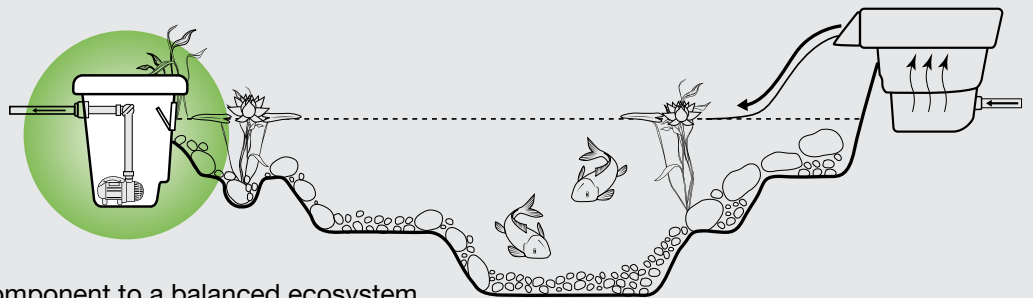

Pond skimmers are an integral component to a balanced ecosystem pond. Pond skimmers continuously sweep the surface of the water, drawing in leaves and floating debris to reduce maintenance and keep water clean.

Note: 12PN-10,000 and AquascapePRO 10,000 pumps are too large to fit in these skimmers. Multiple pumps can be used to achieve up to 10,000 gallons per hour.

BioFalls® Filters

Reversible Waterfall Lip
Provides the option of using a natural stone spillway

Removable Rock Tray
Holds rocks, plants, and gravel to help hide the filter in the landscape

Filter Media Net
Holds biological filtration media such as BioBalls, sold separately. See page 32

Circular Shape
Provides superior strength and durability

Biological Filter Mats
Two Poly-Flo ESA biological filter mats provide 50% more surface area than traditional mats

Signature Series 6000 BioFalls® Filter Shown
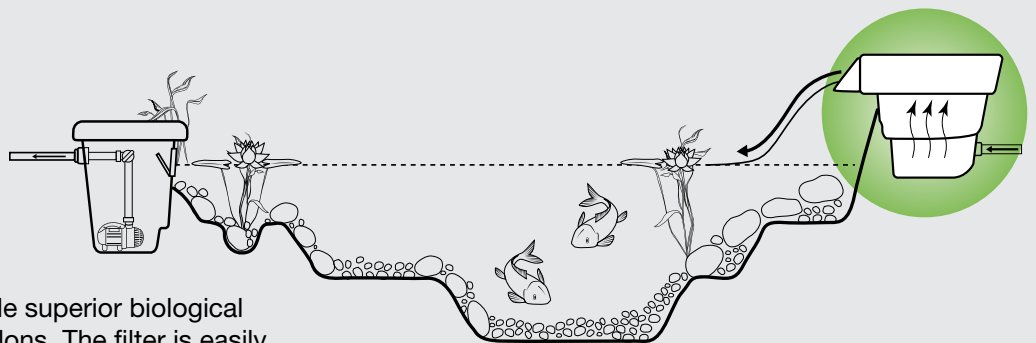

Aquascape BioFalls Filters provide superior biological filtration in ponds up to 6,000 gallons. The filter is easily concealed into the landscape and creates the perfect start of a waterfall or stream.

Fountain Bowl Biological Filter Kits

Introducing the New Fountain Bowls!

These bowls are a new take on our old Patio Ponds. We have made the Fountain Bowls versatile, and customizable, allowing you to get creative and use them in many different ways.

Each of the bowls below can be turned into a biological filter. Simply select a bowl and add a Fountain Bowl Biological Filter Kit from page 31, creating a beautiful and functional filter for any pond or waterfall

Filter Media Rolls
Aquascape filter media rolls provide efficient mechanical and biological filtration, reducing maintenance and improving water quality. The bulk rolls provide the ability to cut the material precisely to the shape and size of any pond filter, useful in a wide variety of applications.

Rigid Filter Mats
Aquascape rigid filter mats provide efficient mechanical and biological filtration for your pond. The filter mat can be easily cut to your desired size and shape for installation in a wide variety of skimmer boxes and filters.

Add-On Pond Filters

Cage and Filter Sponge
Effectively capture debris before it enters the filter or pump

Ceramic Filtration Rings
Clean water using biological filtration

Submersible Pond Filter Shown

Adjustable Spray Bar
Creates surface movement and oxygenation

Ideal DIY Solution
Easy and cost-effective way to add filtration to small ponds

Pond, Waterfall, and Fountain Pumps

Pumps are the heart of any water feature, circulating water and providing aeration to help create a stable ecosystem.

Control The Flow
of Your Waterfall

Aquascape Adjustable Flow Pumps

Turn up the pump speed for a more voluminous "party-style" waterfall, or dial it down for a quieter, more relaxing waterfall. Options include AquaSurge®, SLD, and AquaForce®.

AquaSurge®

SLD

AquaForce®

Smart Pump Receiver

Adjustable flow pumps include the Aquascape Smart Pump Receiver to provide on-board flow control adjustment and the option to connect pumps to the Aquascape Smart Control App.

Features

1. WiFi Pairing Light
2. Integrated Control Panel
3. Flow Adjustment Controls
4. On/Off Controls
5. Protective Hinged Cover
6. Durable Metal Housing

Smart Control App

With built-in WiFi connectivity you can control pumps from anywhere using your smartphone or tablet!

Connecting to the App provides a variety of wireless control functions, including flow adjustment, customized scheduling, and the ability to monitor your energy usage.

Download on the App Store

GET IT ON Google Play

SLD Pond Pump

Solids-Handling Capability
Allows the pump to pass solids, significantly reducing clogging and maintenance

2" Outlet
Allows for quick, easy installation

Smart Pump Receiver
Connects to the Smart Control App, allowing you to control the pump with your smartphone or tablet

Asynchronous Motor
Provides superior reliability and longevity

SLD 4000-7000 Adjustable Flow Pond Pump Shown

Universal Remote
for Adjustable Flow Pumps

• For use with adjustable flow pumps only

Packaged Weight: .3 lb. (.14 kg)
Packaged Dimensions: 5"L x 2.75"W x 1.25"H

#45041

Adjustable Flow Pump
Extension Cord

• Extend pumps 25' from the receiver
• For use with adjustable flow pumps only

Packaged Weight: 2 lb. (0.9 kg)
Packaged Dimensions: 14"L x 4.25"W x 4.25"H

#45048

Aquascape SLD Pond Pumps are ideal for use in ponds, Pondless® Waterfalls, and other water feature applications

PL and PN Solids-Handling Pond Pump

Overload Protection
Built in thermal overload protection prevents pump from overheating

Shielded Intake
Prevents air from entering pump when used in shallow water applications

Unmatched Dependability
Double mechanical silicone carbide seals and oil lifter provide unmatched dependability

5-PL 5000 Solids-Handling Pond Pump Shown

High Efficiency
Continuous duty motor operates at lower temperature which extends pump life

Reinforced Power Cord
Anti-wicking, watertight design improves durability and prevents issues with electrical shorting

High Volume Flow
Channel impeller and specially designed volute allows for efficient, high volume water flow

EXT Pond Pump

External/In-Line Pump
Ideal for water features requiring high flow in a non-submersible application

TEFC
Totally enclosed fan-cooled motor

Customized Electrical
Junction box located on pump motor allows 115V or 230V electric to be customized on site

EXT 18000 Pond Pump Shown

EXT Pump 2"-3" Plumbing Kit

- Includes fittings, flanges, valves, and hardware to install the EXT pump at the perimeter of the pond's edge.

Packaged Weight: 21 lb.
Packaged Dimensions: 12.5"L x 12.5"W x 12"H

#48027
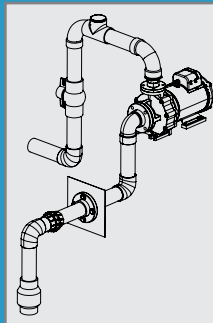

EXT Pump 3" Plumbing Kit

- Includes fittings, flanges, valves, and hardware to install the EXT pump at the perimeter of the pond's edge.

Packaged Weight: 25 lb.
Packaged Dimensions: 12.5"L x 12.5"W x 12"H

#48044
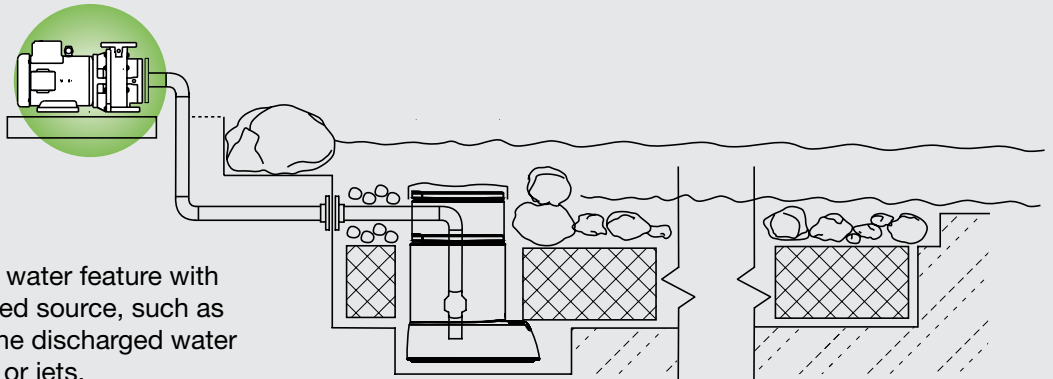

EXT pumps are installed near the water feature with the intake pulling from a pre-filtered source, such as a Pondless® Waterfall Vault and the discharged water sent to wetland filters, waterfalls, or jets.

EcoWave® Pond Pump

3-Year Warranty
Confidence in the advantages of today's technology and reliable construction

Overload Sensor
Built-in overload sensor prevents pump damage

Intelligent Mag-Drive Motor
Provides significant electrical cost savings

EcoWave® 4000 Pond Pump Shown

Low Suction Intake Attachment
- Allows pumps to be operated in shallow applications such as the AquaBasin® 45.
- Compatible with the EcoWave® 2000 & 3000.

Packaged Weight: .5 lb. (.23 kg)
Packaged Dimensions: 5.75"L x 4.5"W x 5.75"H

#91117

Note: Not compatible with EcoWave Pump models 4000 and 5000

Check Valve Adapter for EcoWave Pond Pump - 2"
- Designed to make it quick and easy to connect EcoWave® pumps to the Dual Union Check Valve 2.0 (#48026).

Packaged Weight: .5 lb. (.23 kg)
Packaged Dimensions: 3.75"L x 3.75"W x 4"H

#88058

Note: Compatible with EcoWave Pump models 2000-5000

EcoWave pond pumps are ideal for use in pond skimmer and Pondless® Waterfall Vault applications with lower head heights.

AquaForce® Solids-Handling Pond Pump

Protective Cage
Prevents large debris from clogging or damaging pump, reducing maintenance

Powerful and Efficient Motor
Asynchronous motor technology makes this pump more powerful and more efficient than traditional "mag-drive," or magnetically driven pond pumps

Smart Pump Receiver
Connects to the Smart Control App, allowing you to control the pump with your smartphone or tablet

(For use with the AquaForce Adjustable Flow Solids-Handling Pond Pump only)

Threaded Disconnect
Allows for the pump to be easily removed from the pond for maintenance or winterization without removing hose clamps or plumbing assembly

AquaForce 4000-8000 Adjustable Flow Solids-Handling Pond Pump Shown

Universal Remote for Adjustable Flow Pumps

• For use with adjustable flow pumps only

Packaged Weight: .3 lb. (.13 kg)
Packaged Dimensions: 5"L x 2.75"W x 1.25"H

#45041

Adjustable Flow Pump Extension Cord

• Extend pumps 25' from the receiver
• For use with adjustable flow pumps only

Packaged Weight: 2 lb. (0.9 kg)
Packaged Dimensions: 14"L x 4.25"W x 4.25"H

#45048

The AquaForce® protective pre-filter cage allows the pump to be placed directly into the pond.

Propeller
Designed to provide water movement in stagnant areas of the pond

Standalone Pump
Does not require any pipe or plumbing

Adjustable Head
Allows for directional flow control

#91142 Pond Powerhead
Packaged Weight: 9.5 lb.
Packaged Dimensions: 13.25"L x 9"W x 15.75"H

Maximum Flow Rate	2,000 GPH / 7,647 LPH	Motor Type	Mag-Drive
Wattage	40	Amperage	3.33
Voltage	12V	Frequency	60 Hz
Power Cord Length	25'	Pump Dimensions	9"L x 5.5"W x 5.25"H
Warranty	3-Year Limited		

Typical Application

Winter Application
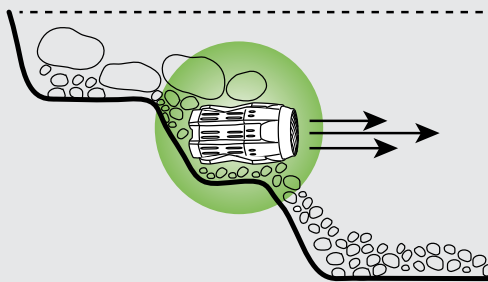

The Aquascape Pond Powerhead is designed to create water movement and eliminate stagnant areas in ponds and water gardens.
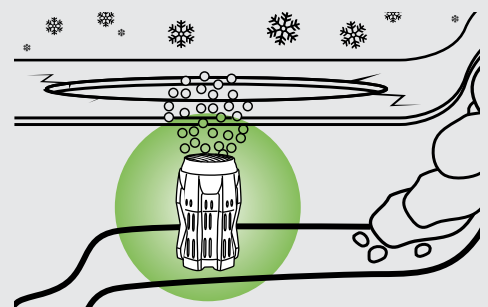

Stand on end and create surface agitation in the winter months, helping to keep a hole in the ice for proper gas exchange.

Understanding Aeration

Every biological process that occurs in ponds is dependent on oxygen. This is especially important in warmer temperatures or at night when plants are not converting sunlight into oxygen. Pond aerators supply dissolved oxygen directly to ponds and other water features, helping all biological processes and resulting in healthier fish and plants.

Color-Changing Light Extension Cables
The color-changing lighting extension cables allow for simple extension of Aquascape color-changing lighting. They are ideal for use with our 12-volt quick-connect transformers and 3-way and 6-way splitters. The 12-volt quick-connect components eliminate the need to cut wires and provide a weatherproof seal. Not compatible with Aquascape LED white lights.

Color-Changing Light Splitters
Aquascape color-changing splitters provide a simple connection of three or six color-changing fixtures to a single power source. Multiple 3-way and 6-way splitters can be chained together to attach additional fixtures. Not compatible with Aquascape LED white lights.

Lake and Large Pond

Aquascape Simple Solutions Water Treatments Are Designed to Make Your Life Easier!

By combining our best water treatments into four treatments for ponds and two for waterfalls and fountains, we have a solution for the most common water feature issues. Choose a simple pump top or use the dosing system versions and prepare to be amazed at the results.

Simple Solutions Treatments for Ponds

Maintain for Ponds

Staple water treatment for ponds, designed to keep ponds clean and healthy

What It Does
- Reduces maintenance
- Supports a healthy ecosystem
- Provides healthy and crystal-clear water conditions

How It Works
- Combines our most effective water treatments into one powerful formulation (like a multivitamin)
- Uses a beneficial bacteria blend, phosphate binder, flocculant clarifier, and detoxifier

Clear for Ponds

Use to clear unsightly water conditions, including cloudy and discolored water

What It Does
- Clarifies water and resolves water quality problems
- Mitigates cloudy or discolored water and issues with debris attached to rocks and gravel

How It Works
- Uses a concentrated formula of clarifiers and a phosphate binder which work to prevent and eliminate issues with water clarity and debris buildup

Clean for Ponds

Use to naturally reduce organic sludge and debris

What It Does
- Reduces organic waste caused by uneaten fish food, fish waste, and leaves or debris
- Naturally cleans rocks, gravel, and filters
- Keeps ponds looking clean and clear

How It Works
- Uses a powerful blend of heterotrophic bacteria to digest organic waste and sludge

Protect for Ponds

Use to protect pond fish such as koi and goldfish. Great for use after transporting/handling fish or cleanouts.

What It Does
- Reduces fish stress
- Prevents parasites and infections
- Accelerates healing of superficial wounds, scrapes and breeding abrasions

How It Works
- Uses an all-natural formulation of tea tree oil and other plant-based biopolymers

Simple Solutions Water Treatments **WT**

Simple Solutions Treatments for Fountains and Waterfalls

Prevent for Fountains	Clean for Fountains
Staple product for fountains; cleans and clarifies	Used to clear unsightly suspended debris

Prevent for Fountains

Staple product for fountains; cleans and clarifies

What It Does
- Controls white-scale buildup, foam, and stains
- Helps to clear unsightly water conditions and debris that attaches to surfaces

How It Works
- Contains a special blend of clarifiers and scale remover that will not damage fountain surface

Note: Not for use with water features containing fish

Clean for Fountains

Used to clear unsightly suspended debris

What It Does
- Keeps waterfalls and fountains clean, clear, and healthy
- Reduces maintenance and improves water quality

How It Works
- Uses a flocculant clarifier and phosphate binder to help clear and prevent debris

Application Options

Choose between simple pump top options or one of our automated treatment devices which automatically add treatment, so you don't have to!

Dosing System SL ●

Ideal for Ponds, Waterfalls, and Fountains up to 2,250 Gallons

Hood Design
Designed to hide and protect mounted control panels from weather conditions

Easy-to-Use Controller
Simply set for your water feature size and enjoy the benefits

Compact Design
Sleek and compact to easily hide near smaller water features

Storage Capacity
Store up to 32 oz. of water treatment

#96085 Dosing System SL
• Treats smaller water features up to 2,250 gallons

Includes: enclosure, control panel, treatment intake, internal and external tubing, and low-voltage transformer

Controller Wattage: 4.5W
Transformer Wattage: 6W
Cord Length: 13 ft. (4.3 m)
Tubing Length: 6 ft. (2 m)
Packaged Weight: 3 lb. (1.4 kg)
Packaged Dimensions: 6"L x 4"W x 10"H

Durable Housing
Built to last and can be buried to conceal

Water Treatments Sold Separately

For more treatment options see page 91

Smart Pond Dosing System XT ●

Ideal for or Ponds, Waterfalls, and Fountains up to 75,000 Gallons

Durable Enclosure
Stores up to a gallon of treatment for longer durations between refills

Smart Control
Connect to the app to control, monitor, and receive alerts on your smartphone or tablet
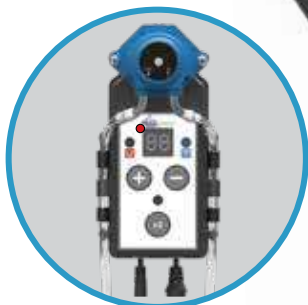

Mounted Controller
Push-button design makes it easy to set for your water feature size

#40040 Smart Pond Dosing System XT

• Treats larger water features with ease (30,000 gallons for over a month)

Includes: enclosure, (1) control panel, (1) treatment intake with low treatment alert, internal and external treatment tubing, and low-voltage transformer

Controller Wattage: 6W
Transformer Wattage: 12W
Volts: 12V
Cord Length: 13 ft.
Tubing Length: 6 ft.
Packaged Weight: 6 lb.
Packaged Dimensions: 11.5"L x 9.75"W x 15.25"H

Low-Treatment Alert
Alerts you when the treatment is 90% empty

Water Treatments Sold Separately

For more treatment options <u>see page 93</u>

Add Two Different Treatments Simultaneously!

Smart Pond Dosing System Controller Add-On Kit

• Add to Smart Pond Dosing System XT to dose two 64 oz. treatments simultaneously

• Includes intake assembly, tubing, and power cable

Packaged Weight: .75 lb. (340 g)
Packaged Dimensions: 11"L x 4.75"W x 3.75"H

#40004 Patio Pond Maintenance Tabs
- Targeted treatment for container water gardens
- Contains eight pure strains of beneficial bacteria
- Helps optimize water quality
- Safe for fish, animals, and plants

#98908 Fountain Foam Free
- Safely eliminates foam from water features
- Helps maintain the beauty of your water feature
- Helps keep water clean and clear of foam
- Safe for fish, animals, and plants

#96055 Rock & Fountain Cleaner
- Quickly eliminates debris from waterfalls, fountains, or streams
- Easy-to-use spray bottle application
- Safe for fish, animals, and plants

#40007 #96056 Fountain Maintenance
- Safely eliminates scale and debris build-up from water features
- Maintains the beauty of your water feature
- Helps maintain perfect water quality
- Prevents white scale build-up without damaging feature
- Safe for fish, animals, and plants

#98907 Fountain Scale Free
- Safely removes calcium and scale from water features
- Helps keep water clean and clear of hard water deposits, white scale, and foam
- Adds the fresh clean scent of lavender
- Safe for fish, animals, and plants

Pond Plant Care

Aquatic plants are an important part of the water garden. They provide beauty and naturalization with a huge array of plant choices. Most importantly, they help balance the pond's ecosystem and provide valuable biological filtration that removes nitrogen, ammonia, nitrates, and other minerals from pond water.

Great for fertilizing without repotting

Great for repotting or for new plants

NEW

Once-A-Year Pond Plant Fertilizer

- Formulated specifically for pond plants
- Once-a-year, time-released formula provides impressive growth throughout the entire season
- Available in granular or capsule form

INNOVATIVE FERTILIZER FOR POND PLANTS!

NPK Blend (11-3-14)
- No excess nitrogen
- Lower phosphorous
- Higher potassium for flowering

180 Day Formula
- Feeds all season long
- No leftover in the spring

Auto-Ignite Fire Features

CSA Certified System
Certified system with thermocouple sensor ensures safe operation

Automatic Ignition
Quick and easy startup with the press of a button

High-End Burner System
12" stainless steel burner ring provides impressive 60,000 BTU flame output

Flame Control System
Push-button ignition with internal safety valve

Easy Flame Adjustment
Simply turn the knob for seamless flame height control

Easy Setup
Weather-proof power connection and 3/8" flared gas hookup

Each Auto-Ignite Feature Includes:

- Feature with Burner System
- Flame Control System
- Propane Tank Regulator
- Gas Hose and Power Cable
- Water Tubing

Fountain Spitters

Integrated Planter
Fits a three-inch plant

Construction
Made of high-quality polystone material

Installation
Lightweight and easy to install

Rubber Tubing
Comes with ½" rubber tubing

UV Resistance
Resistant to UV and heat exposure

Add Some Whimsy to Your Water Feature

These spitters look great in streams or along the edges of ponds and waterfalls. You can even add them to container water gardens.

Only Available for Sale in the USA

Aquascape offers a wide variety of liner, underlayment, and geotextiles to help take the guesswork out of building your water feature.

❶ Rock Pad
Extra-thick, non-woven polypropylene fabric provides a significant cushion between the liner and large rocks, effectively protecting the liner from rips or tears

❷ Woven Microgrid Geotextile
Provides a long-lasting barrier to prevent rock and debris from entering sub-surface water reservoirs while allowing water to easily infiltrate the storage basin

❸ EPDM Pond Liner
The ideal membrane for retaining water in ponds, Pondless® Waterfalls, and other water features

❹ Non-Woven Geotextile Underlayment
Used to protect pond and water feature liner from rocks, roots, and other sharp objects that may damage the liner

❺ Concrete Cloth
Flexible cement-impregnated fabric that hardens upon hydration to form a durable concrete layer, protecting liner from digging animals, human traffic, or damage from setting large rocks or boulders

Rainwater Harvesting

The Aquascape Rainwater Harvesting System adds the beauty of a water feature to a rainwater collection system for capturing, filtering, and reusing our most precious resource – water! Whether you choose a Pondless® Waterfall or bubbling urn to add to your landscape, you'll be happy knowing your rainwater harvesting system not only looks great but is beneficial for the environment too.

STEP 1: Choose The Water Storage System

Each Aquascape Rainwater Harvesting System water storage kit includes: Pondless® Waterfall Vault Extensions(s), AquaBlox®, 45 mil EPDM Liner, and two pieces of non-woven geotextile, underlayment (one to surround the AquaBlox® and one to surround the exterior of the EPDM liner).

Water Storage Kits

	500 Gallon	1000 Gallon	1500 Gallon	2000 Gallon	2500 Gallon	3000 Gallon
Item Number	30097	30099	30102	30105	30108	30112
Basin Size	6' x 9' x 4'	6' x 9' x 5'	8' x 9' x 5'	9' x 11' x 5'	11' x 12' x 5'	9' x 11' x 6'
AquaBlox Large Water Storage Modules	16	32	48	64	80	96
45 mil EPDM Liner	15' x 20'	20' x 25'	25' x 25'	25' x 30'		
Underlayment	(2) 300 sq. ft.	(2) 500 sq. ft.	(2) 625 sq. ft.	(2) 750 sq. ft.		
Pondless Waterfall Vault Extensions	1	4				6

STEP 2: Choose The Water Feature

OPTION 1

Flexible PVC Pipe
Includes 2" 25 ft. pipe and overflow kit to manage excess water

Pondless® Waterfall Vault
Perfect for pump placement and access

Waterfall Spillway
Creates the ideal starting point of the waterfall or stream

LED Lighting
Included to bring the feature to life at night

❾ Rocks and Gravel

STEP 3: Choose The Decorative Fountain

	Stacked Slate Sphere 24" Dia. (61 cm)	Scalloped Urn 45" H (114 cm)	Natural Mongolian Basalt Columns Set of 3	Stacked Slate Urn 33.5" H (85 cm)
Item Number	78287	78239	58062	98939
For more information, see page	164	166	168	165

For more fountain options, see page 142-151

Rainwater Harvesting Downspout Filter

Packaged Weight: 10 lb.
Packaged Dimensions: 27"L x 25.25"W x 15"H

#30166

Add a Downspout Filter

The Downspout Filter is installed at the base of the downspout ready to capture rainwater and remove a variety of debris. Incoming rainwater is passed through a series of mechanical filters that remove leaves, twigs, seeds, and small sediment that accumulate on the surface of the roof between rain events. Add a Downspout Filter to any fountain or Pondless® Waterfall feature and make it sustainable!
